

COWICHAN RIVER IS IN NO DANGER

The Dominion Government Has Taken Precautions
By Which it Will Be Improved
for Sportsmen.

There seems to be some misapprehension with respect to the lease which has been granted by the Dominion government to the Capital Cannery Company to fish for sockeye in Cowichan Bay. The government, as has been announced previously in the Times, took every precaution to not only protect the river fishing for the sportsmen, but to increase its value from that standpoint.

A most important feature of the lease is that it requires the lessee to build immediately and operate a large salmon hatchery, of not less than ten millions capacity. The Cowichan river should in the future far surpass its former record for abundant sport under such conditions as the lease provides.

The hatchery is directly under Dominion supervision, some of its officials may, indeed, devote part of their time to adding to the hatchery, as the eggs of steel-heads, spring salmon and the finer species of sea trout and river trout will be hatched there, though the lessee will also hatch cohoes, dog salmon, etc.

The netting to be carried on will not interfere with spring salmon, steel-heads and trout, as no spring salmon are to be taken before July 1st, and steel-heads are not to be taken at any time, both these fish are carefully taken care of by the lessee. Small salmon and the fine gamey trout of the Cowichan will pass through the large meshes of the nets permitted under the license which the lessee is required to take out. The lessee thus find themselves to take none of these fine game fish, and the Indian interests too are safeguarded, while they will be encouraged to engage in the fishing and in working for the canning and packing establishments. All the protective laws of the Dominion enforced elsewhere will be enforced on the Cowichan river.

Every one who knows the famous river, knows that fine sport the spring afford during the early months of the year, on to say July, while spring grise 2 to 12 pounds weight abound in the months of June, July and August. From the middle of November to April, steel-head fishing is at its best and sea trout are best from April to August.

The lessee cannot take these under any consideration. These are reserved for the angler. The cohoes from early September to the end of November do not rank with spring and steel-heads. Cohoes are so plentiful that the sportsmen will get their full quota, even if the lessee takes a proportion; but the dog salmon and humpback salmon

which the angler views with contempt will be utilized. These inferior salmon, under the lease, will no longer go to waste, while all the game species are, as shown above, amply protected.

The Ottawa government for nearly 40 years has issued leases on eastern rivers with the best results to sportsmen. The Moose river, one of the finest salmon rivers in Quebec, has been commercially fished by Messrs. Holliday Brothers, but under the wise provisions of a lease it has been preserved and improved for the salmon angler. Leases are indeed, the only safe method of preserving salmon rivers of this capacity, and the public gain is incalculable, as resources otherwise wasted are utilized, while the angler receives full benefit.

The case of the Moose river is very similar to that of the Cowichan. A lake is situated at its head similar to the Cowichan lake, so that the results on the Moose should be followed very closely in the Cowichan river when similar methods are adopted.

As Mr. Barker, manager of the British Columbia Packers' Association told the fisheries commission in November, 1905: "It is a very wise government which gives an exclusive right where there is only a pack of 8 or 10 thousand cases of salmon. If it were divided up to two lessees, both would be losing money, and the river would be overfished." The Nimpkish river is a splendid object lesson, it supports a profitable industry, and has improved in an abundance of fish.

The Cowichan river is in no danger, only a few years ago, the province of which are bound to protect the sporting capabilities for which the river has long been famous indeed, increasing angling facilities, stocking it with fine fish, and yet utilizing several runs of salmon of no value to the angler, and which at present are wasted and lost.

Vast schools of dog salmon, sea trout, etc., have been going to waste, and the granting of the Cowichan lease to a reliable firm like the Capital City Cannery and Packing Company prevents this waste and by a series of strict and wise provisions safeguards the interests of the anglers, as well as the protection of the river from time immemorial have relied upon certain kinds of salmon for food. Nay, more, the lease not only safeguards the game fish, but ensures their greater plenty; while it provides for the development of a fishing industry which will use the kinds at present wasted, and will give employment and benefit to the whole surrounding locality.

day, and the Fifth Regiment band will attend on Saturday. This is felt, will meet with the approbation of the members of the home band. It has been fixed for Saturday out of consideration for a number of the members of the band to enable them and all their personal friends as well to be present.

When in Seattle Mr. Moresby interviewed Mr. Van de Vender, the well-known manager of the Meadows track, Seattle. This gentleman gave Mr. Moresby and other members of the Driving Club of Victoria every possible encouragement, and promised to assist to the utmost of his ability in getting horses to come over and he further stated that he knew as a positive fact that quite a number of horses would be over for the meet. Several other prominent racing men were also interviewed by the secretary, and in every way Mr. Moresby was well received, and promised every possible encouragement, so that the prospects are exceedingly bright for a most successful race meeting this season. Mr. Moresby went to considerable trouble to secure the "barrier" or starting gate for the Victoria Driving Club. This barrier is a patent right. No one, therefore, is permitted to operate it without the consent of the owners who lease it.

RIOTS IN CLEVELAND.

Kosher Shops Which Raised Price of Meat Were Raided by Women.

Cleveland, June 13.—A riot occurred in the Jewish quarter yesterday as the result of a bar placed upon the Kosher meat shops. The Jews, angered over the recent raise of four cents a pound for meat, refuse to buy and are urging others not to buy. All the Kosher shops were picketed yesterday by the women and children of the neighborhood. Delivery wagons were stopped, meat was soaked with coal oil and the shops closed.

When Jacob Rockevitch emerged with meat he was surrounded by women. In attempting to escape he ran over a baby. A crowd of 500 gathered quickly and Rockevitch was being roughly handled when rescued.

One woman, who was buying meat, was severely injured when her clothing was caught in a crowd. Several shops were raided.

ON WAY TO VANCOUVER.

(Associated Press.)

Toronto, June 14.—Commissioner Combs of the Salvation Army, has left for the West to open the new Citadel and men's metropole at Vancouver on June 15.

LOS ANGELES TRAGEDY.

Lodging-House Keeper Killed His Wife and Then Blew His Head Off.

Los Angeles, June 13.—Frank T. Edson, lodging-house keeper, yesterday shot his wife and instantly killed her, and then blew his head off. He was 50 years old and his wife 45. The couple frequently quarrelled over financial matters. They came from Okaloosa, Iowa, some time ago.

KILLED HIS DAUGHTER.

Forced Nine-Year Old Girl to Drink Carbolic Acid.

Indianapolis, Ind., June 13.—Robert Jolly killed his daughter Gladys, 9 years old, today, by forcing carbolic acid down her throat. He had been drinking and when arrested talked foolishly. It is believed his mind has affected.

THE LAUNCH DISASTER.

Body of One of the Victims Has Been Found.

Norfolk, Va., June 13.—A report from Jamestown exposition grounds says that the body of one of the eleven who were lost from the launch off the battleship Minnesota was today found floating in Hampton Roads. The body is believed to be that of the coxswain of the launch.

JAP INCIDENTS IN CALIFORNIA.

AMBASSADOR CALLS ON SECRETARY ROOT.

United States Administration Irritated By Persistent Reports Regarding Trivial Affairs.

(Special to the Times.)

Washington, June 13.—Ambassador Aoki got something to think about when he visited Secretary Root yesterday afternoon to make formal complaint because small boys broke a few panes of glass in the greenhouse of a Japanese at Berkeley, Cal. He emerged clearly ruffled and refused to talk.

Secretary Root also refused to talk, but undoubtedly spoke plainly to Ambassador Aoki regarding the action of the Japanese in magnifying to an international question every trivial case in which Japanese residents of the United States were involved.

For some time the administration has been impatient and irritated by the persistency with which these incidents have been pressed to its attention.

Press Opinion.

(Associated Press.)

Tokio, June 14.—The Mainichi, published at Osaka, with a circulation of 150,000, expresses anger at the reported recent attacks on a Japanese horticulturist at Berkeley, Cal. It says: "The outrage demonstrates the impotency of the California authorities to protect our compatriots. Now is no time to rest assured on the stereotype diplomatic assurance of Washington. Only two weeks after a positive declaration that preventative measures would be taken to safeguard Japanese rights comes the Berkeley outrage. That the outrages are limited to California is not a sufficient explanation."

Ambassador's Statement.

London, June 13.—The Japanese ambassador, Baron Komura, today issued a statement to the press rectifying the facts in respect to the attack on the Japanese restaurants in San Francisco on May 20th, and the negotiations which followed between the Nationalists, who have a large majority in the council, and who were originators of the proposition. The motion, of which notice has already been given, reads: "In view of the unique and distinguished position acquired by Mr. Croker, as an Irishman, in America, and his intention to spend the remainder of his life in his native land, and support the Irish parliamentary party in its struggle for Home Rule, he is hereby constituted an honorable freeman of the city of Dublin."

The only other Americans who have been given freedom of the city of Dublin have been General Grant, Captain Potter, of the famous relief ship Columbus, and Patrick A. Collins, the late mayor of Boston, Mass.

MR. CHAMBERLAIN AT HOME.

His Health Is Reported to Be Improving.

Birmingham, Eng., June 13.—Mr. and Mrs. Joseph Chamberlain arrived here today from London. The health of Mr. Chamberlain is improving, but his comparative helplessness was a great shock to his friends, who assembled at the railroad station to meet him. All his were raised in respectful silence as his carriage drove away.

POSSIBILITIES OF TRADE ROUTE

ARRIVALS ON GEORGIA
ARE VERY SANGUINE

British-Mexican Vice Consul Optimistic of Prospects of New Steamship Line.

Seldom have the possibilities of a new trade route been spoken of so glowingly as the terms in which passengers who arrived at Victoria yesterday on the steamer Georgia, discussed what is known as the Canadian Mexican Pacific Steamship Company's line. Among these passengers were two who spoke ex-cathedra and who have been for some time past here in commercial contact with Mexico. One of them was D. G. C. MacNeill, British vice consul in Mexico with headquarters at Colima, and also holding the position of president of the street railway company of that Mexican city; the second was W. P. Worsnop, Mexican consul at Vancouver, and a member of Porter Worsnop & Co., export and import merchants in the Terminal city.

Mr. MacNeill stated that he had been the recipient of numerous letters from Victoria and Vancouver merchants inquiring into the possibilities of placing various kinds of goods in that country. And the interest in the new line, he said, was not confined to British Columbia but was one of the outstanding features of discussion in commercial circles in Mexico and especially in Mexico City, the capital of the state.

MAYOR SCHMITZ FOUND GUILTY

WAS TRIED ON A
CHARGE OF EXTORTION

Sentence Will Be Passed June 27th
—Will Appeal to Higher Court.

(Special to the Times.)

San Francisco, June 14.—Twelve jurymen last night pronounced Mayor Eugene Schmitz guilty of extortion on the second ballot.

The verdict would have been unanimous at first, but one jurymen made a mistake on the first ballot.

A thousand spectators showed signs of approval. Exclamations "good" and "shake" could be heard.

Sentence will be passed on Wednesday, June 27th.

Schmitz is downcast, but says he will appeal to the highest court.

Ordered to Jail.

San Francisco, June 14.—Mayor Schmitz has been ordered to jail by Judge Dunne, bail having been denied.

MUTINY FEARED IN BLACK SEA FLEET

Number of Seamen Placed on Cruiser
Under Strong Guard of Soldiers.

London, June 13.—A dispatch to a news agency from Sebastopol says: "Vice-Admiral Wren, recently appointed successor of Admiral Skrydloff to command the Black Sea fleet, has sifted out and arrested the disaffected seamen at that port and placed 500 of them on board a cruiser, under a strong guard of the Praski regiment."

Additional arrests are being made, and it will probably be necessary to fit out another penal cruiser.

The seamen of the fleet are exasperated because no charges have been preferred against the arrested men, and it is said a mutinous outbreak is likely to occur.

LUMBER DEALER SLAIN.

Shot When Out Walking With Another Man's Wife.

Columbus, Miss., June 13.—At Carrollton, Pickens county, F. B. Ther, a lumber dealer, was shot and killed by John Parker, aged 30, a prominent business man. Ther and Parker's wife were met on the road near Carrollton by Parker, who immediately began shooting. Ther being almost instantly killed, Parker then took his wife to her brother's home in Carrollton. Ther's body was found in a ditch near the road.

ENDED WORRY BY SUICIDE.

Two Old Residents of Stratford Took Their Lives by Drowning Themselves.

(Associated Press.)

Toronto, June 14.—Two suicides of old people took place at Stratford yesterday. Samuel Raitkin, about 60 years old, left his home at 2 o'clock yesterday morning, and last night his body was found in the river at the rear of the house of refuge, he having committed suicide. For some time he had been brooding over financial difficulties which no doubt caused him to commit the rash deed during a state of temporary insanity. He was highly esteemed and had been in good circumstances before he met certain reverses in business speculation.

Mrs. Patterson, aged about 70, was found drowned in Windsor lake yesterday, all indications pointing to suicide while the victim was in a state of temporary insanity. Deceased had been brooding over the illness of her daughter.

UNIVERSITY APPOINTMENTS.

Fredericton, N. B., June 14.—Dr. Philip Cox, of Chatham, N. B., and Charles McDonald, of Chatham, N. B., were appointed by the senate of the University of New Brunswick, today to fill the vacancies in the chair of natural history and geology, and chemical engineering, and chemistry respectively.

FOREIGN TRADE OF DOMINION.

STATEMENT FOR THE
PAST TWO MONTHS

One Hundred Thousand Dollars to Be Spent in Improvements at Rideau Hall.

(Special to the Times.)

Ottawa, June 14.—Canada's foreign trade for two months of the fiscal year, April and May, shows an increase of \$7,696,092 over the same two months of last year. The total trade was \$94,071,678. There was an increase in imports of over \$12,922,984, and a decrease of \$5,225,890 in exports. The decrease in exports was due to the backward season and labor disputes in Montreal and elsewhere. The output of the mine shows an increase of three-quarters of a million and all other branches show decreases.

Rideau Hall Alterations.

The government is arranging to make alterations and extensions at Rideau Hall, the residence of Canadian governor-general. The exterior is to be entirely changed. Tenders will be called early for the work. One hundred thousand dollars is available for the work beginning this year. An imposing structure of classical design of grey granite will replace the present unlovely structure. The brick court which forms two wings of the present building, are to be removed and replaced with granite walls. There will be a great entrance hall and promenade one hundred feet long and one hundred feet deep. The floor above will be divided into two rooms and a ball room for the use of the guests for balls and receptions. From the ground the hall will rise three stories to a dome. There will be two elevators. At present there are none. A feature of the interior will be a magnificent marble stairway leading from the promenade to the upper floor. It will take a year to complete the work.

CIVIC IMPROVEMENTS.

Subjects Which Came Before the Lighting Committee.

The civic lighting committee held a meeting last evening at which a report was drawn up for presentation to the council on Monday evening in connection with the proposed plan for placing the overhead lighting and other wires in the central part of the city underground.

A letter will be sent to the British Columbia Telephone Company outlining the proposition and negotiations with that concern, and the electric street railway officials will be recommended.

The proposal to do away with the poles supporting the electric trolley wires was also considered by the committee. It is suggested that these poles can be replaced by supports for the guy wires secured to the sides of the buildings along the main streets.

This system is carried out in most large cities and it adopted here it is felt that it would aid the mayor and the aldermen very materially in their endeavors to remove obstructions from the main thoroughfares.

The committee's report will contain a recommendation that additional lights be placed at the corner of First and Hill streets, on St. Lawrence street and at the corner of Edward and Russell street and Richmond avenue.

BOMB ON TRACK.

San Francisco, June 13.—With intent to destroy a San Bruno car, some miscreant placed a dynamite bomb on the car tracks between Fifteenth and Sixteenth streets during the early hours of yesterday morning. Had it not been for a timely discovery by the police before the approach of the first car a frightful catastrophe might have occurred.

The bomb is supposed to have been placed by two men, one of whom was seen in the vicinity of the tracks and the other was seen in the vicinity of the car.

The car was seen to be on fire and the driver was seen to be running. The car was seen to be on fire and the driver was seen to be running.

THE HOSPITAL REQUIRES AID

CONSIDERABLE SUM
IS NEEDED AT ONCE

Board of Directors Consider the
Necessity for Enlarging Institution to Meet Demands

The directors of the Jubilee hospital at their meeting last night stated that a grant of between \$15,000 and \$20,000 from the provincial government is absolutely essential to enable them to make the improvements necessary to keep the hospital up-to-date and provide for the right and proper treatment of the public in cases of illness or accident, that owing to the lack of suitable female labor in this country workable female labor in this country should be brought from England; and that their present laundry was in such a dangerous condition that it did not warrant the sum of \$400 for repairing, cementing and brick work. At the meeting last night the following were present at the board room in the Jubilee hospital: President James Zeman in the chair, Messrs. Pemberton, Lewis, Campbell, Brett, Bone, Helmcken, Day and Holland.

The finance committee reported that wages, to the amount of \$1063.55 had been paid for the month of May and recommended the payment of various accounts totalling \$3909. The average cost for each patient on the basis of those expenses was \$1.60 a day.

A brief report was received from the house committee notifying the board that the painting of the wards and rooms in the institution was completed and that work on the corridor leading to the operating room was now proceeding.

The board reported having memorialized the provincial government in order to obtain their assistance in meeting the great expenses they were being put to and must shortly make in the hospital. Among other points brought to the attention of the government the memorialists stated the expenses incurred upon the equipment and furnishing of a patients' operating room and increased accommodation for the nurses of the Jubilee hospital. They further drew attention to the fact that they were unable to receive free patients as they desired, because of their present expenses in up-keep and carrying out the equipment and furnishing of the patients' operating room and increased accommodation for the nurses of the Jubilee hospital. They further drew attention to the fact that they were unable to receive free patients as they desired, because of their present expenses in up-keep and carrying out the equipment and furnishing of the patients' operating room and increased accommodation for the nurses of the Jubilee hospital.

BOND & CLARK
 11 TROUNCE AVENUE, VICTORIA. TELEPHONE A1092.

An interesting function occurred in connection with the Methodist Chinese mission in the city on Wednesday evening, when a farewell was given to the departing missionary and a welcome to his successor, Shou Qiu Kow, who has been in the work here for a number of years, left yesterday for New Westminster. His successor, Chan Yu Kiam, has been for the last few years engaged in the work in Vancouver. The members of the local mission presented Mr. Kow with a gold chain

suitably inscribed, while the lady teachers of the Sunday school presented him with a portfolio, and from the girls of the Rescue Home he received a fountain pen. Mr. Kiam, the new missionary, prior to his departure for Victoria, was tendered a farewell by the city on Wednesday and was accompanied by Mr. York, editor of the Chinese daily in Vancouver, who is an assistant in the mission there, and who returns to Vancouver to-morrow.

MEXICO MAKING GREAT ADVANCES

VAST SUMS BEING SPENT ON HARBORS

Conditions in the Republic Set Forth in Advice Received by Steamer Georgia.

Returning from her first trip to Mexican waters, and her inaugural voyage on the Canadian-Mexican Pacific steamship line, the steamer Georgia, Captain Henderson, pulled into port last evening. Perhaps the most interesting feature in this, the homeward voyage of her first sailing, was that all the cargo which she carried, upwards of 500 tons, was consigned to Victoria. Captain Henderson describes the trip as a splendid one and says that the weather was delightful throughout, with the exception of strong head winds, when the Georgia was rounding Cape Flattery on the homeward voyage.

The saloon passengers who arrived on the vessel were D. G. C. MacNeill, Thomas Adair and W. P. Worsnop.

According to advice brought by the Georgia there is great activity along the Pacific Coast of Mexico. There are evidences as the present time that the near future will see this coast line a great trading highway. All along the seaboard the harbors are being improved. Wharves are being constructed. During the past five years a sum of \$7,000,000 has been expended and it is the intention of the administration which is so ably controlled by President Diaz to spend a further \$12,000,000. Colima, whose port is Manzanilla, is the largest town in the east of the republic, having a population of 27,000. The harbor works along the coast are being carried out by the famous firm controlled by Sir Westman Pearson, the English engineer, who is responsible for the construction of the Tehuantepec railroad, which is described by passengers who arrived on the Georgia as doing an immense trade.

The Georgia has at present a Chinese crew which was brought out from the Orient. The crew will be relieved by other Chinese who are at present en route to this port on board the Montague. The Georgia will remain in port for a few days and then proceed to Vancouver and New Westminster to load with cargo for her next trip on the line.

The following cargo brought by the Georgia is now being discharged at the outer wharf: 500 tons of salt consigned to Simon Leiser; 100 cases of 600 bottles for F. R. Stewart & Co.; a shipment of one for the Tye Smelter and sample shipments of the other kinds of Mexican fruits.

An unidentified Frenchman went into the cemetery at Nice, lay down on a grave, and committed suicide with a razor.

30 pairs Boys' Dongola Laced Boots, sizes 1 to 5. Regular \$1.75. To-day: **\$1.40**

FULLERTON THE SHOEMAN

48 GOVERNMENT STREET. Next to Campbell's.

THE FULL COURT.

Snow vs. Crow's Nest Pass Company Still Being Argued.

The full court is still sitting, although the end of the list of appeals is approaching.

To-day the appeal in Snow vs. Crow's Nest Pass Coal Company is being argued.

S. S. Taylor, K. C., for the defendant appellant company, finished his argument this morning. And J. Martin, K. C., for the plaintiff respondent, is presenting his side.

The action is one for \$2,000 damages for the loss of an arm by the plaintiff. It is argued that the company did not exercise sufficient care in protecting the machinery which caused the accident.

Judgment was delivered this morning by Mr. Justice Irving in the appeal of Fleming vs. Hutchinson.

The appeal, which was taken by the defendant, was dismissed. The case was a Vancouver one, involving the question of commission in connection with a real estate deal.

WILL REPRESENT THE B. C. DRUGGISTS

John Cochrane Elected to Attend Meeting at Toronto—Officers of Provincial Organization

The annual meeting and banquet of the British Columbia Pharmaceutical Association held in the St. Francis hotel, Vancouver, on Wednesday evening, proved a most successful affair.

At the meeting a communication was read from the president of the Nova Scotia Pharmaceutical Association suggesting that an association covering the whole Dominion should be formed and proposing that a meeting of delegates from the various provincial associations be held in Toronto during the coming September, while the Industrial Exposition is in progress. After a short discussion it was decided that a representative be appointed to express the local association's hearty endorsement of the proposition at any meeting that might be called, and John Cochrane, of Victoria, was chosen. It is understood that the movement toward the establishment of a Dominion association is at present only in embryo form, and until the various provincial bodies announce their stand on the matter, it is impossible to say whether the Toronto meeting will materialize or not.

The election of officers resulted as follows: President, R. R. Burns, of Armstrong; vice-president, C. E. Netherby, of Vancouver; secretary-treasurer, E. S. Knowlton, of Vancouver; counsel, Messrs. T. A. Muir, C. D. Chisholm, E. S. Knowlton, W. M. Harrison, J. E. Emery, and C. E. Netherby. The Victoria representatives at the meeting were Messrs. Cochrane and Emery.

Following the business meeting, the annual banquet was held, at which the following, and many others, were present: Messrs. T. A. Muir, C. D. Chisholm, J. R. McFar, R. Campbell, T. M. Henderson, H. J. Rogers, J. L. White, Wm. Henderson, James Emery, J. R. Sutherland, M. S. McDowell, T. R. Robinson, J. Cochrane, T. S. Knowlton, D. G. Curtis, R. R. Burns, Charles Nelson, G. A. McKinnon, G. A. Laidlaw, R. Webb (Winnipeg), C. E. Netherby, W. Nalanth, H. M. Ferguson, W. A. Acton, George Lyall, F. G. Wood, C. J. McKay, V. Brinford, W. E. Davidson, J. M. Atkins, H. H. Watson, W. M. Harrison.

The toast to the Association was responded to in a witty vein by Mr. H. H. Watson, who alluded to the legislation which had been enacted at the instigation of the association through its parliamentary agent, Mr. Cochrane, Sater Associates were responded to by Mr. R. Webb, a newcomer from Winnipeg, who voiced the greetings of the prairie city in a well-rendered vocal selection. The "wholesaler" trade, as represented by Mr. T. Henderson, and the retail trade by Mr. D. S. Curtis, of New Westminster. The examiners were responded to by Mr. John Cochrane. He advocated the maintenance of a high standard by this board rather than seeking after reciprocity with other provinces. A good point was also made by this speaker when he suggested that the association should press for such arrangements being made in the mapping out of the courses of the proposed provincial university as would be of benefit to students in pharmacy.

The toast to The Ladies was taken up by Mr. McDowell, after which the assembly adjourned to meet next year in New Westminster.

The Pacific Coast Steamship Company's excursion steamer Spokane is expected to arrive at the outer wharf early this evening on her way to Alaska for the first excursion of the summer season. The vessel will remain at the wharf for about four hours which will give the passengers an opportunity to see the city. The Spokane, which was specially built for the Alaska passenger traffic, is making the inaugural excursion for the company this year.

CONDITIONS ON THE WEST COAST

Steamer Tees Arrived in Port To-day—Activity Continues in the Whaling Industry

Having been as far as Cape Scott and way ports on the West Coast of the island, the steamer Tees, Captain Townsend, arrived in port shortly before noon. She experienced good weather during her trip and brought over a hundred passengers to this port.

The steamer brings news that the new whaling station at Narrows Cut Inlet is as far as building goes, complete. The machinery is now being rapidly installed. The ground covered by the site is about three times as large as that at Sechart, and from reports brought to port the station well deserves its name as the largest in the world. The first shipment of material and workmen were brought to Kyquon on the 7th of March, and Narrows Cut Inlet was at that time a wilderness, whereas now the ground has been cleared, buildings have been run up within the last few months, the place has assumed an entirely different appearance, and it is fully expected that the Sechart whaling will operate from there during the second week in July.

The hunting at Sechart continues to prove as successful as at any time during the present season. On Wednesday five whales were captured, and yesterday, morning when the Tees arrived there a huge sulphur bottom had been towed to the ship. This is regarded to be the largest ever captured on this coast. As far north as Cape Cook the Tees saw large schools of whales, and the future of this industry along the coast line would seem to be assured.

From Sechart the Tees brought 200 barrels of whale oil and 15 tons of fertilizer, which will be landed at the outer wharf to-day for transshipment to Glasgow.

Among the passengers who were landed at this port were: Mr. Thorne, an American capitalist from the East, who is interested in the resources of Quinalto; Mr. MacCauley, who has large interests in copper mines at Quinalto; Mr. Durfee, of this city, who was investigating mining propositions at Sidney Inlet; the three Misses Dawley from Clayquon, who have come here on a visit; Mr. and Mrs. Woods, of Alberni; Mr. Tromp and Mr. Fellman, both American capitalists, who were investigating timber limits at Clayquon, and were greatly impressed with the prospects there; Miss Rollings, on a pleasure trip from Alberni; Mr. O. Stoen and party, the former being an American capitalist who has an option on timber limits at Nootka Sound, and who intends buying the property and commencing work at once.

The majority of the other passengers who had come down were loggers. Many of the logging camps in connection with the Sechart whaling have been cleared down to enable the mill to operate with the large amount of lumber which it has on hand. A party of Americans also came down from the mill anticipating the revels consequent upon Independence Day.

The Tees was scheduled to sail again to-night for Clayquon and way ports, but will not leave until 10 o'clock to-morrow night.

ORCHARD'S CONFESSION.

Detective McFarland Denies Having Made Any Promises to State Witness.

(Associated Press.)

Boise, June 14.—Capt. James McFarland, the famous detective who has figured so largely in the testimony given in the Orchard case, and who has been attacked by the counsel for the defence, prefers not to be interviewed at length on the subject of Orchard's confession.

"It would be superfluous for me to relate it," he said yesterday. "Orchard has told the literal truth about the confession and the way it was given to me. I made him no promises. I never made a promise to a criminal in my life. Orchard first confessed to me, but said he was not quite ready to give it to me finally. I promised to hold it for some time, and I did so. He told me that when he was ready to tell the whole story he would let me know, and some time later he again told me the incidents of his life, leaving out nothing. Every word that he has said on the stand as to confession is the truth, and there is nothing to add."

The state expects to close its case in ten days or two weeks. Charles Parrow, for the defence, says their case will take about four weeks, though it is possible it may be concluded in less. It is generally conceded, however, that a verdict will not be reached before August.

There will be an adjournment to-morrow until Monday afternoon 3 o'clock, when the case will be resumed at Caldwell. The case of Harry Orchard, charged with the murder of Frank Steunberger, will be called in Caldwell and be postponed until next term.

Orchard, who reached the climax of his testimony yesterday, and whose sensational story came to an end in a dramatic manner, counsel for the defence leaving him pleading for the life of a fellow murderer, returned to the penitentiary after he left the court room. Warden Whitney said the prisoner appeared to be in better spirits than he had before for many months. He shows not the slightest evidence of fatigue or nervousness, and ate a hearty meal after he reached the penitentiary.

The funeral of the late Lee G. Burns will take place on Saturday afternoon at 3 o'clock, from the residence at 3400 Broadway. The Rev. Dr. Smith of the Lutheran church will officiate, the arrangements being in the hands of Undertaker Hanna. Deceased was a member of the Fraternal Order of Eagles which will be represented at the last rites.

DIED.

GUNION.—On Thursday, June 13th, 1907, at the family residence, on the Indian reserve, Victoria, West, Florence Gertrude Gunion, aged 4 years and 4 months.

The funeral will take place on Saturday, June 15th, leaving the residence at 123 P. O. street to the Roman Catholic Cathedral at 2 o'clock.

Friends kindly accept this intimation. Burial in the Roman Catholic cemetery.

At the Royal Jubilee hospital, BOLDEN.—At the 14th inst., James W. Bolden, aged 21 years, eldest son of J. W. Bolden, aged 21 years, died at the Royal Jubilee hospital, BOLDEN. The funeral will take place on Sunday, June 16th, at 10 o'clock, from the residence at 123 P. O. street. Friends please accept this intimation.

MCGUIGAN.—At Vancouver, on June 13th, Mrs. Elizabeth McGuigan, aged 58 years.

PAID OVER MILLION DOLLARS FOR TIMBER

The Ninkish Deal is Largest Ever Carried Out in This Province

(Special to the Times.)

Vancouver, June 14.—Particulars regarding the deal for timber on Ninkish river, Vancouver Island, shows that it is by far the largest ever carried out in British Columbia. Three billion feet of timber, estimated to be on fifty thousand acres of land, are included in the property. The timber is to be sawed up in Vancouver, where a special mill will be erected. The buyers are Michigan people, the vendors being the British Columbia Timber Co., of Vancouver; Mr. McDougall, George Carmody, of Seattle. The consideration is \$1,200,000, of which \$50,000 is paid in cash.

The same buyers are getting a lot of other timber on the coast from California to Alaska.

NEW ADVERTISEMENTS.

TO LET—Three housekeeping rooms. 111 Blanchard avenue.

WANTED—Young lady typewriter for invoices; must have experience. Apply Irishman, Pacific Hotel.

WE FURNISH HELP OF ALL KINDS.—Farm, bush, sawmill, railroad, hotel, help, etc., etc., male or female. Write Canadian Pacific Employment Agency, 506 Cordova Street, Vancouver.

WANTED—Young girl or elderly woman, light house work. 125 Quadra street.

HOUSEKEEPER—Applications will be received for the position of housekeeper at the Provincial Royal Jubilee Hospital, Victoria. Applicants should state fully their qualifications and furnish references or copies of testimonials. For further particulars address F. Elworthy, secretary, Victoria.

THE PROVINCIAL ROYAL JUBILEE HOSPITAL

(Incorporated 1890.)

The annual meeting of the donors and subscribers to the institution will be held in the City Hall on Friday, the 28th June, at 4 o'clock in the afternoon.

Business: Resolving the annual report of the directors, the treasurer's statement for the year ending 31st May, 1907, and the election of directors.

The four following directors retire, but are eligible for re-election: F. S. Barnard, H. D. Helmcken, F. B. Pemberton and Alexander Wilson.

Donors and subscribers can vote for four members only. The City Council nominate five (5), the local government three (3), and the French Benevolent Society three (3), making a total of fifteen (15) directors. All donors of money, and annual subscribers of \$5 and upwards are eligible to vote for the election of directors.

THE NET RESULTS.

It is only natural that supporters of Premier McBride should claim that that gentleman has gained a great moral victory by his spectacular appeal to the foot of the throne. But neither manifestations of gratification nor expressions of congratulation can obscure the actual facts of the case. British Columbia is to receive exactly what was apportioned to her by the Conference of Premiers on motion of the Conservative representative of Ontario, while if Premier McBride had listened to the advice of Sir Wilfrid Laurier and Hon. W. S. Fielding, instead of leaving the Conference in order to magnify his personality and gain political notoriety, much more generous terms could have been procured. The question is closed, and no federal government of the future, whether Liberal or Conservative, will consent to open it without the approval of the provincial partners in the confederation compact. This fact is thoroughly understood by Premier McBride and all his friends, however jubilant they may affect to appear at the result of his theatrical effort to establish a principle that had never been denied.

When the Premier left for London his avowed object was to secure from the Colonial Office the appointment of a commission to investigate the claim of this province and to recommend terms of settlement. We contended then that his mission could not be successful for reasons that were apparent. If the principle were established, that all any of the provinces claiming dissatisfaction with the terms of union had to do in order to secure readjustment of such claims was appeal to the "foot of the throne," and have a commission appointed by the Imperial government with power to make an award and to enforce it, there could be but one result from the establishment of such a principle—chaos in the affairs of Canada. It was perfectly obvious that the British government would not dare to thus meddle with the internal affairs of a country entrusted by the Imperial Parliament with self-government. The proposition was simply preposterous. Whether the Premier acted the part of a mere tyro in statesmanship or whether he was merely carrying his policy of bluff to the last extremity in making that preposterous appeal to "the foot of the throne," we shall leave the public to judge. The manifest fact is that he never had the slightest chance of gaining any advantage for the province in his mission to London. The words "final and unalterable" were cut out of the measure now before the Imperial Parliament because they could be of no effect. All enactments are subject to alteration at the will of the people interested. The present Imperial Parliament cannot bind future Imperial Parliaments. It was not necessary for Premier McBride to protest against the inclusion of such words in the bill, inasmuch as their incongruity had been drawn to the attention of the Dominion government immediately on the passage of the measure through our federal parliament. Premier McBride did not undertake his journey to Westminster, with trips to Paris and other attractive places on the side, for the purpose of protesting against the words "final and unalterable." He went there with an altogether different object. But he must be given credit by his friends with having accomplished a

great personal triumph and with vindicating a vital principle. Therefore he is credited with doing the only thing that has been done. But, if his protest had been necessary, which it was not, it could have been entered just as effectually in a written communication to the Imperial government. The people of British Columbia, therefore, have not only to thank their Premier for bungling their case before the Conference of Premiers; they must pay the cost of the vain excursion of a vain man to the "foot of the throne." That is the net result of the bounce and bluster and blunders of the past seven months.

NEXT WEEK'S RACES.

There was a period in the history of the world, and that period is yet within the memory of people of the present generation, when constant recreation and relaxation were possible only to the favored few of the population upon whom fortune had deigned to smile. To-day, by reason of reduction in working hours, the masses of the people have plenty of opportunities to enjoy themselves and to participate in the pleasures of life. Hence the existence in Great Britain of professional football teams and of cricket clubs in which men who earn their living by proficiency with the bat and the ball are probably the most prominent features. On the football field the amateur and the professional elements are not permitted to mix together. In cricket the conditions are exactly the opposite. Lord Dalmeny, the son and heir of Lord Rosbery, is the captain of the team of which gallant Tom Hayward, a son of the people, is the chief ornament. In the United States millions of dollars are invested in the baseball business, and this business is profitable because the masses of the people are willing to pay handsomely for their amusement and recreation. If a city within the confines of Anglo-Saxondom desires to become in every sense of the word a centre of attraction, it must be prepared to make concessions to this all-pervading spirit of the times. Philosophers may shake their heads gravely and deprecate the spread of this tendency to frivolity and the apparent lack of human interest in "the things that really matter," but until they succeed in stemming the current and turning men's thoughts into higher altitudes, what can those in authority do but endeavor to meet the wishes of the majority?

Victoria has scenic beauty and climatic attractions of the first class to offer as an inducement to people of means to come here and settle and renew their youth. There are opportunities also on our Island for men with capital, for agriculturists and horticulturists, to improve their positions without forfeiting the real enjoyments of life. But if we hope to make the most of our situation we must provide amusements in keeping with the natural tendencies of the average man and woman. We must furnish them with amusements in summer and entertainment in winter. We must have a good theatre and outdoor sports of a diverse character.

A company of enterprising men will next week try the experiment of opening a race meeting here. This company has gone to considerable expense, in co-operation with the municipality, in preparing one of the best race tracks to be found upon the Pacific Coast. They tell us that the programme of "the sport of kings" will include some of the most attractive features procurable within the limitations of circumstances. Whether the race meeting shall be a success or a failure depends upon the co-operation of the public in the venture. A public holiday has been proclaimed by the Mayor for Thursday next, and the action of His Worship should meet with general commendation. Upon the financial result of this experiment very much depends. The public cannot be dragged into bestowing its patronage upon amusements of any kind however worthy the object or purpose of promoters. All we can do, therefore, is call attention to the facts and leave the result in the hands of those who have the power, if they choose to exercise it, of establishing a permanent racing circuit in Victoria.

Mayor Schmitts has been found guilty. We really did not think the thing could be accomplished so quickly. The people of San Francisco are evidently determined to deal firmly with the men who have brought disgrace upon the name of their city. Still Mr. Schmitts has yet to be sentenced and the sentence to be carried out. There are many byways in the law as applied in the United States, and our friend George Collins, who finally became enmeshed himself after many escapes on technical points, may not be the only legal master of strategy in San Francisco.

Emperor William of Germany is evidently master in his own domestic household as well as ruler of his kingdom. The Kaiser dealt summarily with his royal kinsman convicted of unseemly conduct, and has strengthened the position of the throne in so doing.

One of these days the Colonnade, carried away by the flood of its own conceit, will be claiming that the idea of the all-red route originated under its hat.

In India there are four main castes, the Brahmins being the highest and the Sudras the lowest. There are also men of no caste at all. These are termed Pariahs.

REGIMENT IS SEEKING RANGE

TO PRACTICE FIRING
WITH FIELD GUNS

Everything at Macauley Point is Proceeding Satisfactorily—Church Parade Sunday

Everything is most satisfactory at the Fifth Regiment's camp. Work and play are combined in happy proportions, making the men smart, happy and contented. A piano has arrived in camp, affording great pleasure to all the men. Impromptu concerts are got up each evening, the heartiness of the applause bearing witness to the talent of the performers.

The food supplied at the messes is very good. The men are working hard, the time, however, rapidly passes by the judicious blending of the practice with the theoretical work of a soldier's training.

Last evening No. 1 company practiced at the 15-pounder and the five soldiers were given extra drill, which took the form of special instructions. No. 2 company were at infantry drill, and No. 3 company were hard at work in the fort at practice with the Maxims and 100 rounds of ammunition were fired.

The regiment will furnish the guard of honor on the occasion of the visit of Prince Fushimi. And probably No. 1 company will fire the salute.

The commanding officer almost feels as if his morning inspection is at an end. It has become a mere formality. The untidy tents are no longer to be found. The men's names are no longer to be seen on the regimental board, and what is the commanding officer to do? There is no doubt about the matter, for it is a fact that the camp this year is much cleaner than it has ever been before.

The regiment seeks a location for a land range. The range is all right, and everything to be desired. There is no range, however, for the 13-pounders. The extent of land required would be 7,000 yards, 3,500 being the range and 3,500 the allowance which has to be made for the ricochet in open country. There must of course be no houses in and around the line of fire.

In one way a lesser distance might suffice, viz., an open space, say, of 2,500 at the base of a hill or mountain. It is desirable for the regiment to be able within reasonable distance to find a suitable range.

Directly they do so they will be able to obtain a free grant of 200 rounds of ammunition from the government. As the regiment holds the record for the best artillery practice of any camp in Canada last year, the public in Victoria should be especially anxious to ascertain where the regiment at full range will be able to practice and keep up the high standard of last year.

The regiment will parade at St. Paul's church on Sunday at 10.30 a.m. The band concert will be held Sunday afternoon, when the officers and their friends will be at home to extend a most hearty welcome to everyone of their friends.

The band will give a concert in camp on Sunday afternoon from 2.30 to 5.10 p.m., when the officers, N. C. M. C. and men will be "at home" to their friends.

The regimental orders for to-day are as follows:
"Orderly officer for June 14th, Lieut. A. J. Brace, in place of Lieut. R. P. Clark; next for duty, Lieut. H. W. Watson; next for duty, Lieut. L. H. Garnett.
The regiment will parade on Sunday, June 16th, at 9.45 a.m. for the purpose of attending Divine Service at St. Paul's church, Esquimalt. Dress, church parade order (with sashes in place of tunics).
Lights out will be sounded on Saturday at 11.30 p.m.
Calls for Sunday will be sounded at the following hours: Reveille, 6.30 a.m.; breakfast, 7 a.m.; office, 7.30 a.m.; dress for camp inspection, 9 a.m.; dress for Divine service, 9.30 a.m.; dinner, 12.30 p.m.; tea, 5 p.m.; tattoo, 10.45 p.m.; lights out, 11 p.m.
The usual C. O.'s prize of \$5 will be given for the cleanest and smartest tent dressed with military accoutrements only, due regard being also paid to the appearance of the tent detachment.

WHERE VESSEL WAS SEIZED.

Captain Christian of Carlotta G. Cox Tells Where Sealer Was Taken as Prize.

In a letter which Captain Christian of the Carlotta G. Cox writes to the local sealing company, he states that his vessel was seized by the United States revenue cutter Rush on 200 miles from Sitka and about 100 miles from the nearest land in Alaska. As previously announced in the Times the sealer is now on her way to Victoria with a prize crew on board.

Captain Christian writes that on the 25th of May he was signaled to heave to by the United States ship. An officer came on board and examined his papers. The American official then went back to his ship and Captain Christian thinking he was rid of him, set sail and proceeded on his course. He was again signaled to heave to and again boarded and an inspection of the sealers on board was made by the Americans. The result was that the sealer was taken in tow and brought to Sitka.

She was held there while the Rush communicated with Washington. The result of this communication was that the vessel was detained as a prize and as already reported, brought to Port Simpson, where owing to an accident to the Rush a prize crew was placed on board and the vessel is now on her way to these waters. The place where the schooner was first actually seized was lat. 59.12, long. 141.20.

ENGINEER KILLED.

Ottawa, June 14.—James Fenigan, a C. P. R. engineer, who was running a locomotive unattached to a train near Carleton Place, was instantly killed. The locomotive was derailed and fell upon him.

CITY NEWS IN BRIEF

—Yesterday was the 29th anniversary of the big fire of Vancouver, and the pioneers of the Mainland City celebrated the occasion at a most successful banquet.

—The Women's Auxiliary to missions held its monthly meeting this afternoon at the home of Mrs. Roger Rogers, Crossing, near the Royal Oak. Members residing in the city left on the V. & S. train at 2 o'clock.

We pay men of 22 years and under good wages and at the same time teach them a good trade—Albion Stove Works, Pembroke St.

—Next Sunday the S.S. Iroquois will stop one hour at the Crofton smelter, which is now in full operation. Take a trip and enjoy the exhilarating breezes and beautiful scenery of this delightful outing.

—Dainty ready-to-wear lace silk neckwear in the newest and prettiest style is being displayed Friday and Saturday at Robinson's Cash Store, 56 Yates street. Prices as usual, the lowest.

—Henri Rousseau, who is to pay weekly visits to Victoria, giving instruction on the piano, has decided to give a special teachers' course. This is done at the request of some of the teachers of music of the city.

—Yesterday afternoon the funeral of the late Mrs. Margaret Ann Chalmers took place from the parlors of the B. C. Funeral-Furnishing Co. at 230. Service was conducted by Rev. Leslie Clay. The following were the pallbearers: George Stout, John Stout, R. S. Rendall, Thomas Stout.

—A timber deal that approaches a record was recently made between the McLean Bros. of Vancouver, and M. McDougall, the former having disposed of their immense timber limits on the Nimkish river, at the north of the Island, for \$1,000,000. Mr. McDougall, who has had timber cruisers in the limits for the past year, agrees to pay \$50,000 down and to complete the payment in installments.

—Some of the finest strawberries which have been seen by the Times staff this season were left at the office by W. Ellis, who has purchased the fruit farm of John Richards, Esq., malt, and Adair's road. The berries are of phenomenal size, well colored and of first class flavor. The fruit was raised without any irrigation, and proves the great possibilities of the district as a fruit producing one.

—The annual garden party given by the ladies of the Knox Presbyterian church will be held this year on the grounds adjoining Major Dupont's estate and fronting on Belmont avenue. The date has been fixed for Wednesday next, the 19th inst. During the party Mr. Longfield's orchestra will perform. Afternoon tea will be served, while in the evening strawberries and cream and other light refreshments will be provided. An enjoyable day is fore-shadowed, and it is expected that there will be a large attendance.

—Rev. Dr. Fraser united in the holy bonds of matrimony Wednesday evening at Vancouver, Ernest McDonald, of Victoria, and Alice Christine Macrae, of 421 Princess street, of Vancouver. The bride looked very pretty in a white moire gown and carried a shower bouquet of white roses and maidenhair ferns. She was attended by her sister, Miss Linnea Macrae, who wore a pretty frock of pink silk, and carried a bouquet of pink carnations. Mr. J. H. G. Macrae was best man to his brother. The happy couple left last night for Seattle and the Sound cities, where they will spend their honeymoon. Mr. McDonald is a well known plumber of Victoria, and the couple will make this city their future home.

—A sure cure for the worst case of dandruff, hair falling out; if faded, will return to its brightness; makes the hair fluffy and curly; best hair grower; contains no dye or oil; used on blonde or black hair. Gray-Hair-Elixir will return gray hair to its natural color. All Dr. H. E. P. Christ's French toilet preparations represented by Mrs. Winch, 325 Commercial street. All orders, by mail, receive special attention.

annual convention of the W. C. T. U. of B. C. which is to be held in Vancouver from June 25th to 27th.

The annual report of the corresponding secretary was read, showing a most successful year's work. Mrs. Buckholder, superintendent of missions, presented her report which showed the most prosperous year in the society's history. The financial statement of the mission board also proved most satisfactory.

—Irish Apples our Saturday special—Fine old potatoes \$3.25 per sack. W. Acton, 94 Yates street. Phone 1061.

—Buck Sue, the Chinaman who is suspected of having broke into the Montana restaurant and stolen over \$80 from one of the cash tills, appeared before Magistrate Hall in the city police court to-day. The information was sworn to by T. Goldsmith, proprietor of the Montana, and Chief of Police Langley asked for a remand until Monday morning, which was granted.

DISMISSED CASE AGAINST CHINAMAN

Magistrate Came to Conclusion Omission to Feed Pigs Was Due to Mistake.

Magistrate Hall this morning dismissed the case against Jim Fook Yuen, a Chinese merchant in the city, in which the defendant was charged with wanton cruelty to ten pigs through neglect to feed them. The case was remanded from yesterday in order that the prosecutor, A. J. Dallain, of the S. P. C. A., might obtain the evidence of H. Bishop, C. P. R. freight agent. The case for the prosecution was that the defendant, although notified of the arrival of the pigs, neglected to take them away for several days and did not feed them in the interim. H. P. Bishop said that the pigs were landed from the steamer Rithet late on Saturday night. No notice was sent to the defendants until Monday, when a phone message was sent to the effect that the pigs were at the Kingston street corral, and that they had been fed a sack of potatoes by the day watchman at the wharf. On Tuesday evening witness heard that the defendant had fed some bran to the animals. He could not say whether this was true or not.

Lim Bang, the defendant's son and representative, cross-examined the witness, his pointed questions causing much comment in the court. W. Thompson, day watchman at the wharf, was recalled by the prosecution to give evidence regarding the condition of the pigs while in the corral. "How did you know that the pigs were hungry?" asked Mr. Dallain. "Well, they had nothing to eat for forty-eight hours. They made a noise about it; too. I'd make a noise myself if I had nothing to eat for two days, wouldn't you?" was the reply.

Lim Bang, in cross-examining the witness, pointed out that there were several discrepancies in the evidence given by the various witnesses for the prosecution. He asked the witness where he obtained the potatoes to feed the pigs from. "I got them in the shed," witness replied. "Where were they?" asked Lim Bang. "I don't know. I just fed the pigs for humanity's sake, and didn't worry over who owned the potatoes," was the reply. "Then you stole them, eh?" came the query.

Witness averred that "a Chinaman would say anything," that "Mr. Bishop was a smart man," and that he would make the defendant pay for the potatoes. Lim Bang asked for a dismissal of the case against him. He said that he was entirely in accord with the work of the S. P. C. A., but in this instance there was no intention of ill-treating the pigs, and it was a surprise to him that the case had been brought on.

Magistrate Hall said that no wanton cruelty had been proven, and that the evidence went to show that the defendant had made a mistake in shipping the pigs to Victoria from which the trouble arose. He dismissed the case.

NO REST TENT.

W. C. T. U. Will Not Have One at the Fair.

At the regular monthly meeting of the W. C. T. U. which was held in the Yates Street rooms yesterday afternoon with the president, Mrs. S. J. Thompson, in the chair, it was decided that the society would take no part whatever in the work of the fair this year. This step was taken in view of the fact that the women's protest fair grounds had been ignored by the management and other officials connected with the exhibition and the women will consequently have no rest tent on the grounds this year.

In the course of the meeting delegates were appointed to attend the

CREWS NAMED
FOR REGATTAI. B. A. A. HAS MADE
ITS SELECTIONS

The Representatives Have Taken Up
 Quarters in Club House—Other
 Sporting Items.

The I.B.A.A. representatives for the annual regatta of the Northern Pacific Amateur Association of Oarsmen have at last been decided upon, and the crew is truly a formidable one. The local club are sending a junior single, a junior double, a junior double and a senior four. This leaves but one event undecided, namely, the senior singles, but if the local representative in the junior singles makes good, as is expected, he will also participate in the senior event.

In the junior singles W. N. Kennedy, a young sculler of rare promise, will represent the club. In the doubles C. H. Thompson and J. C. Bendroff will be the hope of Victoria. Thompson and Bendroff are a husky young pair, and pulling exceptionally well together; they manage to get an amazing amount of speed out of their little boat. The selection of the junior four was the hardest task of all. The rivalry, keen for places in all of the crews, was by far the keenest for this event and it was only after great thought and deliberation that the committee finally decided to give the responsibility into the hands of H. Hiscok's stroke, Jenkins, 3; J. Sommers, 2; and V. Gray, bow.

W. Laing and W. H. Jesse will compose the senior doubles and this pair is expected to do great things. They work together with clock-like regularity, and the crew that beats them will, in the phraseology of their American rivals, "have to go home."

The senior four consists of K. Hughes, stroke; W. Laing, 3; F. Baylis, 2; and W. H. Jesse, bow. This crew is one of the strongholds of the club. They are already in championship form and will undoubtedly uphold the I.B.A.A.'s good reputation.

The entire party of oarsmen are sleeping at the club house and turn out for a spin twice each day, at 7 in the morning and again at 6 in the evening. They are all in pretty fair condition already, and although they have but a short time to prepare, they will all be in fine form for the big events. They are under the eye of Phil Austin, one of the "Big Four" last year, and he is insisting upon the men taking the best care of themselves until after the meet.

Cowichan Regatta.
 At the Cowichan Regatta on the 1st of July the following events will take place, commencing at 10.30 a. m.: Columbia river sailing boat race. Boys' double sculls (under 14 years of age). Gents' double scull, lady coxswain. Ladies' single. Gents' double paddle canoe race. Motor boat race. Dinghy sailing race. Indian boys' single paddle canoe race. Ladies' double sculls, gentleman coxswain. Klutchman double paddle canoe race. Indian single paddle canoe race. Gents' upset canoe race. Indian double paddle canoe race. Indian upset canoe race. Greasy pole (gents). Log rolling contest. Greasy pole (ladies). Procession of decorated boats. Every description of boat to be eligible for entry.

All entries must be in the hands of the honorary secretary on or before Saturday, June 23, and no competitor will be eligible to race except the entry fee has been previously paid. Entry fee—Motor and sailing boats \$1. All other events, except Indian and decorated boats, 50 cents per head, exclusive of coxswains. The word "canoe" to be taken to mean "Indian canoe."

Programmes giving times of races and other particulars will be issued later. No race will take place unless there be three or more entries, and no second prize will be given unless there be more than four.

All communications to be addressed to H. D. Irvine, honorary secretary and treasurer, Cowichan Bay. SATURDAY'S CREWS.
 The following crews have been selected and will row on Saturday at the regatta.

OF COURSE some men inherit wealth, but most wealthy men were made so by the saving habit. They had to accumulate something before they could make a profitable investment. Just bear in mind that you never will succeed unless you make a start.

Our Savings Bank is open every day during business hours.

THE IMPERIAL BANK,
 Cor. Government and Yates Sts.
 J. S. GIBB, Mgr. Victoria Branch.

ular monthly J. B. A. A. regatta. There are in all six crews rowing on Saturday and all these are all very eventful matches, some exciting events are anticipated.

1st Crew—L. G. Brown, stroke; Gleason, 3; Curtin, 2; B. Nason, bow.
 2nd Crew—Belyea, stroke; J. McCarter, 3; Royds, 2; Elworthy, bow.
 3rd Crew—McCarthy, stroke; Miles, 3; Cox, 2; C. G. Jameson, bow.

4th Crew—Sargison, stroke; Mills, 3; F. Nason, 2; P. Sargison, bow.
 5th Crew—Clark, stroke; J. B. Jameson, 3; Curry, 2; Frye, bow.
 6th Crew—Hiscocks, stroke; Russell, 3; Strachan, 2; Brown, bow.

CANOE REGATTA.

The canoe regatta of the Vancouver Rowing Club, which will be held on Saturday afternoon, June 23rd, promises to be very exciting. A large number of entries in all the events are promised and competition will be very keen. The girls, who will row in the four-oared lapstroke races, are very eager and almost every evening one of the crews gets out for practice.

The following programme of events has been drafted:
 Men's single paddle, ladies' single paddle, mixed double paddle, girls' single paddle, boys' single paddle, boys' double paddle, ladies' double paddle, ladies' single paddle, men's double paddle, ladies' double paddle, single lapstroke, men's four paddle, men's single skiff (double) with lady coxswain, four oared lapstroke, mixed, tilting, upset canoe events, crab race.

THE RING.

SQUIRE'S RECORD.

Very little is generally known about the fighting record of Bill Squires, the Australian champion, who is now in America preparing to fight the best man for the championship of the world. There has been few Australian fighters who have come to this continent for big battles and of whom so little was known as this man Squires. No one seems to have been able to gain much knowledge as to his past record, so that the following will be of more than passing interest to boxing enthusiasts.

Squires was born in New South Wales in 1873, and fights around 175 pounds when in condition. He is not as tall as Jim Jeffries, but four inches, standing 5 feet 10 inches in his stockings.

He has only been fighting since 1902, but in nearly all his battles he has won by the knockout route. His first contest of any account was with Bill Costello, whom he defeated in three rounds; the following month he met Jack Langan and put him to sleep in two rounds; shortly afterward he met Peter Mills and fought him according to the old London prize ring rules, defeating him in 13 minutes; Joe Sullivan was knocked out in three rounds the following month. In 1903 he met Andy Walsh, an Australian heavyweight, and beat him in three rounds; next he met Jerry O'Toole, the Irish giant, and fought him London prize ring rules, winning in 13 rounds, which took just 14 minutes, and he followed closely afterwards by knocking out Jack Tucker in one round; Mickey Ryan in four rounds; Starlight in three rounds; Bill Hackenberg in two rounds; and Peter Felix in 11 rounds. Jack Johnson recently beat Felix in one round.

The following year, 1905, Squires again met Felix at Sydney and knocked him out in one round. He followed this by stopping Pat Farley in one round and Tom Fennessey at Melbourne in four rounds. Felix demanded another match and they met again in the fall of the year at Sydney. Squires knocking him out in seven rounds. In 1906 Squires met Ed Williams at Melbourne and defeated him in one round. Shortly afterward he met Jack Murphy at the same place and stopped him in two rounds. He next met Peter King, whom he defeated in two rounds, and Bill Sinner and Mike Williams in the round each. Williams was the last man whom Squires defeated.

YACHTING.
 THE DUNSMUIR CUP.
 C. O. Julian has just returned from Victoria, where he has been completing the arrangements for the Dunsmuir cup, says the Vancouver Daily Province. The Lieutenant Governor has signed the deed of gift and the cup is now the absolute property of the Royal Vancouver Yacht Club—up to some other club wins it.

While over at the capital the Vancouver secretary was the guest of the Victoria Yacht Club and the capabilities of its members as sailormen have greatly impressed him. Commodore J. S. Gibb, of the Victoria club took Mr. Julian out for a trip in his fine yawl, the Gwendol. The commodore and his men had evidently determined to show the Vancouver secretary what they could do, for though it blew a terrific gale, off the Race Rocks, they would not take a hitch.

"It was the grandest old breeze I have ever been in," said Mr. Julian, "but those fellows were quite at home in it and treated me to a race with a pilot boat in the dark."

ASSOCIATION FOOTBALL.
 ANNUAL MEETING.
 At the annual meeting of the Vancouver district football league, it was decided to admit the newly formed club, the Nationals, to the league and there will therefore be seven clubs in the play-off next year as well as in the series for a new cup which will be presented to the association by Con Jones, the new elected president.

The forming of a referees' association, which has been discussed for years past, was again before the meeting and it is now almost a certainty that such an association will be formed for the coming season.

President B. E. Armstrong was in the chair and representatives were present from Celtics, Shamrocks, New Westminster, Westham Island, Vancouver City and Thistles.

President Armstrong submitted his annual report.

Officers were elected for the ensuing year as follows: Honorary president, B. E. Armstrong; honorary vice-presidents, J. J. Miller and C. D. Rand; president, Con Jones; vice-presidents, W. J. Riska and H. Hepburn; honorary secretary-treasurer, Will Ellis.

It was decided to hand the proceeds of the Harting Charity cup games, amounting to \$50, to the Children's Aid Society, and the association also decided to hand the sum of \$15 to the Vancouver Athletic club.

Another meeting of the association will be held on Monday evening next when many matters affecting the association will be discussed.

THE TRIP.
 IN TRAINING.
 The approach to the track of the Victoria Driving Club is beginning to bear witness to the rapidly with which the alterations and improvements are being carried on for the race meeting next week. The new gateway, a great improvement on the old one, is almost completed, and the erection of the judges' stand near to the grand stand has been commenced. The boarding in of the track is also far advanced. The men seem well satisfied with the arrangements made for them and their horses, and they consider that the meeting will be one wherein some very good times will be made on the track. Some comment is being made on the quality of the horses entered on the ground. Some of them are rare beauties in their general condition and pace and form. It is a treat to see them out on the track. The track is being quickly working up to proper form under the careful supervision of the track committee. The men themselves are well satisfied with it, and it is generally believed among those on the spot that this will easily eclipse previous ones, and that the public will have every reason to congratulate themselves on paying a visit to the race meeting of 1907. Amongst the recent arrivals at the track is the fast pacer Straight, with a record of 2:35, owned by Alex. Crawford, and driven by C. W. Hick, of Vancouver. J. W. Chapin gave some of his string fast work on Tuesday. Prince was given 4 or 5 fast miles and proved himself to be a better pacer than he was last season. He will make a good candidate for the three-minute class. Dr. Graham's mare Queen Victoria paced several fast miles during the afternoon in company with Norella, another of J. E. Gray's string. Norella is a square trotter and has not been worked much this season. Her owner expects for any event this meet. Her owner expects for any event this meet. Her owner expects for any event this meet.

CHICKEN.
 MATCH IN PROGRESS.
 On the Jubilee grounds this afternoon, a match is in progress between teams representing the university school of the city, and Queen's College of Vancouver.

OAK BAY VS. TACOMA.
 To-morrow on the Oak Bay grounds, the Oak Bay Club will meet the Tacoma eleven in an all day match. Play will commence sharp at 10 o'clock and the following players will represent the local club who are especially requested to be on hand: Barracough, Anderson, Peaves, Trimen, Shelton, Palmer, Stewart, Davis, Richardson.

such an association will be formed for the coming season.

Lemon and Murray. Reserves, Harper and Hastie.

The Tacoma eleven with a few exceptions is nearly the same as last season. A good game is assured.

VICTORIA CLUB TO PLAY.

At the Jubilee grounds to-morrow afternoon, what promises to be a most interesting game of cricket will be played. The Victoria Cricket Club eleven will line up against a team composed of local lawyers and bankers.

The members of the club are busy getting in trim for the two big games at Vancouver on June 29th and July 1st, with the Burrard Cricket Club. These are the next big events of the season and the local club fully expects to be able to hold its own against the Vancouver rivals.

It is an interesting fact that, although the children of tall parents tend to be tall, the offspring of parents of unequal height most frequently follow the shorter, while excessive tallness is rarely perpetuated.

After having worked on the same farm at Edworth, B.C., for seventy-five years, since he was seven years old, James Warren, a farm laborer, has just died at the age of eighty-three.

SYNOPSIS OF CANADIAN NORTHWEST
 HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 3 and 28, not reserved, may be homesteaded by any person the sole head of a family, or male over 21 years of age, to the extent of one-quarter of section, or 40 acres, more or less.

Application for homestead entry or inpection must be made in person by the applicant at the office of the local agent or Sub-Agent.

An applicant for entry or inspection must appear personally at any Sub-Agent's office to be interviewed by the local agent or Sub-Agent, and if the land applied for is vacant on receipt of the telegram and application is to have priority and the land will be held until the necessary papers to complete the transaction are received by him.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be a bona fide homesteader, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, must, subject to approval of the Department, relinquish it in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing a declaration of abandonment.

Where an entry is summarily cancelled, voluntarily abandoned, or subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to priority of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if a subsequently the statement is found to be incorrect in material particulars, the applicant will lose any priority right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

REGULATIONS required to perform the conditions under one of the following plans:

(1) At least six months residence upon cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for, such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother, has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement as to residence may be satisfied by such person residing upon such land.

Before making application for patent the settler must file six months' offer in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.
 COAL.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for all other coals. Not more than 40 acres may be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

QUARTZ.—A person eighteen years of age or over, having discovered mineral in place, may locate a claim 1,000 ft. square.

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon making a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provided for the payment of a royalty of 25 per cent. on the sales. Pioneer mining claims generally are 100 feet square; entry fee \$5, renewable yearly.

An applicant may obtain two leases to mine for gold of five miles each for a term of twenty years renewable at the discretion of the Minister of the Interior. The leases shall have a franchise in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 25 per cent. collected on the output after it exceeds \$1,000.

W. W. CORY,
 Deputy of the Minister of the Interior.

THE NEW ROAD
AT GOLDSTREAMUNDER DISCUSSION
AT BOARD OF TRADE

C. P. R. Make Offer of Right for it
—Committee Will Wait on Government.

It was decided at the monthly meeting of the Victoria board of trade held yesterday afternoon, that a committee should wait upon the provincial government to ask for an early construction of the proposed road from Goldstream to Mill Bay along the Spanish laiet. A committee consisting of F. Pauline, C. H. Lugin, John Nelson, C. F. Todd, and J. A. Mara was appointed to confer with representatives of the municipalities through which the new road will pass and to present the views of the board to the provincial officials. C. F. Todd brought the matter before the board. He referred to the present road over the Sooke mountain grades, pointing out that these grades make auto and general traffic a very hard proposition. If the new road were built, it would be a great advantage to the south end of the island and would attract much tourist traffic. It would be a shorter route to Alberni than the present one and would open up a rich farming district. It was expected in some quarters that the road would be built this year but no action had been taken by the provincial government except to make an appropriation for a survey. He thought the board should urge the necessity for early construction upon the government, and he moved that a committee be appointed to wait upon the provincial officials.

Secretary Worthy read telegrams from B. T. Rogers and R. H. Sterling of Vancouver, saying that they, as motorists, heartily approved of the scheme and expressing the opinion that the Sooke mountain road was an especially dangerous one.

R. Marpole, executive assistant for the C. P. R. in this province, telegraphed that his company was in accord with the scheme and would not donate all land required to build the road along the lines of the plans already filed but would withhold the land from sale in order to facilitate matters.

A resolution was passed thanking the C. P. R. for the offer and the committee named above was appointed to confer with representatives of the adjacent municipalities and to meet the government.

A letter was received from the Vancouver board of trade in which a proposal was made that action be taken to have the amount recoverable in the small debts court increased from \$100 to \$200 was referred to the committee on legislation.

Another suggestion made by the same body that an official assistance be appointed was also referred to the committee on legislation.

A communication from W. H. Hayward was received in which the writer asked the board to assist in protecting the Cowichan river for sportmen. The writer claimed that the lease of fishing rights to the Capital Canning Company in Cowichan Bay would result in the destruction of the steel-heads and trout in the river.

J. J. Shalleross explained the conditions under which the lease was made. He had seen the agreement between the company and the government and it required the former to build a hatchery capable of accommodating 10,000,000 spawn which would be under the control of the government. Moreover the company agreed not to interfere in any way with the fishing rights of the Indians. The company would not fish until July 1st each year and by this time all the river fish would have gone up to the lake. The nets to be used would be of such a class as to allow of the return to the water of any steel-heads caught in them. Mr. Shalleross spoke of poisoning on the river, claiming that there was a lot of it going on at the present time which would be stopped when the company commenced operations. He suggested that a committee be appointed to confer with the lessees on the matter of preserving and improving the fishing in the river and suggested that members who belonged to the fish and game club be selected for the committee.

Chairman Mara elected the following to constitute the committee: William Christie, C. S. Baxter, B. G. Mess, Lindsey Croese and G. H. Barnard. Before adjourning, C. H. Lugin announced that he would bring up the matter of the "All Red" line at the next meeting for discussion. Those present at the meeting were: Chairman J. A. Mara and F. A. Pauline, W. R. McMicking, A. G. Sargison, C. F. Todd, J. J. Shalleross, John Nelson, M. R. Smith, William Christie, S. R. Newton, T. W. Patterson, Simon Leiser and C. H. Lugin.

"ADS" ON POSTAGE STAMPS
The Norwegian postal authorities have under consideration an application for permission to print advertisements on the back of postage stamps. It is proposed to reserve the space for the acceptance and maintenance of a large number of consumptives.

FACETIOUS DEBTOR.
It was explained that a debtor, before the sheriff's court, said he was a debtor and he had more than he could pay in his own pocket than in anyone else's.

POSSIBILITIES
OF TRADE ROUTE

(Continued from page 1.)

When asked what Mexico had to give to this province, Mr. MacNeill pointed out that the staple commodities which would reach this coast would be salt, ore and various kinds of fruits. Of these products, large quantities of ore would come by every vessel. This would be in its raw state and would be sent here for the purpose of smelting. The mines lying along the western seaboard of Mexico were in no instance within easy reach of smelting localities. There were smelters on the east coast of the country, but miners had found that it would be cheaper to send the ore to Vancouver Island as the freight rates were considerably less by steam than by rail. What the trade in salt would be was illustrated by the fact that on this island, and to some extent experimental, voyage of the Georgia, she had brought to this port 500 tons of that commodity. In fruits the trade must be large and growing as the tropic climate of the southern country was especially adapted to the cultivation of fruits which were looked upon as delicacies in this country. By the new trade route the exotic fruits would become comparatively cheap.

Mr. MacNeill could not speak of the prospects of Canadian goods in Mexico until such time as he had viewed the land and found what Canada and British Columbia had to offer.

The British vice consul pointed out that the commercial growth of Mexico during the past few years was of an unprecedented character. At present, he said, the great bulk of the trade lay in the hands of the United States and this was doubtless due to the proximity of that country. However, trade in this America had gained 65 per cent and Germany 35 per cent. England although holding third place was very far behind. He pointed out, however, that the latter country was making strenuous efforts to regain some of the lost ground in the commercial race. British firms were waking up to the expediency of sending their representatives to Mexico, and also to the necessity of more steamship lines. It was the latter factor which had enabled Germany to oust her great trade rival as far as Mexico was concerned. For Canada, however, he predicted a position and her almost unequalled natural resources, huge and ever increasing trade with the southern states.

W. P. Worsnop, the other passenger mentioned above, was returning from a tour through the United States and Mexico in the interests of his firm. He had visited all the larger cities in the southern republic. Reviewing the prospects of the new trade route, he said, "It will necessarily be some time before strong commercial relations can be established with Mexico, but there can be no possible doubt of the ultimate success of the project. As a merchant," he continued, "and one personally interested in the future of Mexico, I have been most painstaking in reviewing the situation and sifting up the prospects for the future. Without doubt I can say that in a short period of time will see a brisk traffic between Victoria, Vancouver, and Mexico. The harbors planned by the administration in Mexican now under construction at the principal seaport towns on the West Coast will be completed within a few years. The railroad development in the interior will be far advanced and the trade of Canada through its western gate with Mexico, will, I feel sure, be greater than the most sanguine in the commercial world expect."

Mr. Worsnop who is incidentally a brother of Captain Worsnop, the general manager of the new steamship line, spoke of the Georgia's fine run from Carmen Island. The distance was accomplished in nine days against strong head winds. It was through Mr. Worsnop's agency that the shipment of 500 tons of salt was procured for the Georgia's return trip to Victoria.

The total loss suffered by the world's shipping during the last three months of the month amounted to 34 ships of 183,284 tons. Of the ships forty-three were British, thirty steamers and thirteen sailing ships.

JEALOUS AT FIFTEEN.

French Lad Seeks Girl Friend and She May Die.

A dispatch from Chagville states that George Viet, a boy of 15, in a fit of jealousy stabbed a girl of his own age with whom he was friendly. They had been dancing together at the conscripts' ball, and Viet, becoming exasperated at the compliments received by Miss Godard, stabbed her twice in the back. Her condition is very serious. The boy has surrendered himself to the police.

PROGRESS IN AFRICA.

The Universities Mission in Central Africa erected a cathedral at Lilongwe, in Nyasaland, recently, the tower of which is fitted with handsome clock and bells, made by J. Benson, Limited, at Ludgate Hill, London.

DESCRIPTION

MOTOR—4 cylinder, vertical, 4 cycle.
HORSE POWER—15; BORE—3 1/2 inch; STROKE—3 1/2 inch.
CYLINDERS—Cast in pairs. Water jackets integral.
VALVES—Inlet and exhaust offset; all on left side.
CAM SHAFT—One piece steel forging. Eight cams integral.
All bearing surfaces hardened and ground.
CRANK SHAFT—Set at 180 degrees. Drop forging from steel specially heat treated after forging; no welds. Bearing surfaces ground.
CRANK CASE—Aluminum; side plates removable for inspection or adjustment of bearings.
COOLING—Water; centrifugal pump, gear driven.
IGNITION—Jump spark—batteries; 2 sets dry cells.
FAN—Cast in fly wheel.
CARBURETOR—Ford design—float feed; automatic.
LUBRICATION—Forced feed oiler. Also splash system in engine base.
CLUTCH—Multiple disc.
TRANSMISSION—Ford planetary system; all spurs.
FINAL DRIVE—By carbon shaft with single universal joint to bevel drive gears in live rear axle. Ford three point system (patented in all countries) with all moving parts enclosed in dust proof casing, running in oil.
FRONT AXLE—One piece drop forging in 1-beam section specially treated.
FRAME—Pressed steel.

DEMONSTRATIONS OF THE ABOVE CAR WILL BE GIVEN ON APPLICATION.

DESCRIPTION

STEERING—By Ford reduction gear system; irreversible; gears at top of column away from dust and grit.
BRAKES—2 sets. (a) Service band brake on transmission, (b) Internal expanding brakes in rear hub drums.
OPERATION AND CONTROL—High and low speeds by hand lever at right of driver; reverse by foot lever; service and emergency brakes by foot lever, ratchet lock.
TIRES—Pneumatic; standard equipment, 28 inch x 3 inch, double tube.
SPRINGS—Front, semi-elliptic; transverse spring. Rear, Full elliptic.
DUST PAN—Protects all machinery from mud and grit.
WEIGHT WITH TANKS FULL—1050 pounds.
WHEEL BASE—84 inch. Tread 56 inch.
BEARINGS—Phosphor bronze and babbit in motor. Hyatt roller in rear axle. Large balls in front hubs.
GASOLINE CAPACITY—8 gallons.
PRICE—\$860 F. O. B. Victoria.
CATALOGUE of tops, lamps and other accessories for the asking.

FATAL FIGHT IN
CHINESE LAUNDRYPROPRIETOR DIES
FROM HIS INJURIES

Railway Conductor Set at Liberty—
Fires in Quebec Villages—

News Notes.

Ottawa, June 13.—As the result of a row in a local laundry on Thursday last, in which John Lee, proprietor of a Chinese establishment on Bank street, was severely beaten by Ham Yuen, an assistant, the injured Chinaman died in the hospital last night and Yuen is under arrest. He will probably be charged with murder. Lee's death was caused by a wound on the leg inflicted by a flat iron. The fatal fight arose out of a dispute over a laundry boy. Lee had turned him out to another Chinaman.

Homestead Entries.
Ottawa, June 13.—Homestead entries for the twelve months ending last month totalled 2,438; for the preceding twelve months the number of homesteads taken up was 2,000. The decrease of 538 in the number of entries for the past year compared with the twelve months ending April, 1906, is attributed in part to the unusually severe winter, and in part to the lack of adequate transportation facilities in the section of country open to homesteaders.

St. Thomas, Ont., June 13.—In the case against McNicholl, the Wabash conductor, of Windsor, charged with criminal neglect of duty, the grand jury brought in "no bill," and McNicholl was discharged.

Two Fires.
Quebec, June 13.—The village of St. Raymond, on the Quebec and Lake St. John railway, was visited by a serious fire, destroying twenty-two houses. The brigade from Quebec was sent by special train. The loss is heavy. St. Agathe, a village on Lake St. Agathe, thirty miles from this city, was the scene of a fire yesterday. Among the buildings destroyed was the C. P. R. telegraph office, a two story building, also used as a residence for the local manager and occupied by the Bell Telephone Exchange.

Market in West.
Toronto, June 13.—At the final session of the co-operative fruit growers of Ontario today, the question of placing one or more men in the West to represent the association was discussed. It was decided to undertake a system of extensive advertising in that market to bring the co-operative associations into closer touch with Western buyers and to establish one or more agencies in the West.

Governor of Jail.
Toronto, June 13.—Rev. Dr. A. B. Chambers, of Parliament street Methodist church, has received official notice of his appointment as governor of the Toronto Jail.

He entered the ministry in 1888 at Kingston, and for 25 years has been stationed at Montreal, Quebec and Toronto, having served the last 16 years here. He is a native of Eedmanagh, Ireland, and is about 60 years of age. He is a graduate of McGill University. There is some feeling in political circles over the appointment. According to Dr. Chambers, statements, he has not been a party man, and vigorously opposed the Tupper administration and voted liberal on many occasions. The newly appointed man has never had any experience as an officer and is not regarded by his friends as a disciplinarian. The appointment is regarded as church interference.

Railway Earnings.

Toronto, June 13.—The Canadian Northern railway earnings for the week ending June 7th show an increase of \$73,800. The figures are: 1907, \$238,100; 1906, \$134,300.

Outbreak of Smallpox.

Toronto, June 13.—Dr. R. W. Bell, inspector, who has returned from a visit to Leeds and Grenville counties, reports a serious condition of affairs in regard to smallpox.

Unable to Agree.

Toronto, June 13.—The Boilermakers' and Shipbuilders' Unions have failed to reach a settlement with the employers for an increase of wages, and the indications are for a strike on Monday morning.

Forest Fires.

Toronto, June 13.—Forest fires in the Thunder Bay district are reported to have in some instances been checked by rain and in others are now under control. Sparks from railway engines are supposed to have caused the fires.

Water Supply.

Indian Head, June 13.—The town council has completed a deal with the Brasseys estate by which all the sections some eight miles south of Indian Head, in which are situated the excellent springs from which the water supply is drawn, pass into the ownership of the town. The price paid was \$25 per acre.

Took Poison.

Winnipeg, June 13.—Mrs. Darling, of Thames street, Elmwood, drank bi-chloride of mercury with suicidal intent, and succumbed to the effects of the poison at 1 o'clock this morning. The woman was fifty-eight years old, and had suffered from melancholia for the past two years. She, with her husband, son and daughter, came here from England in 1906, and have since resided in Elmwood.

Alarming Fire.

Almonte, June 13.—A fire which broke out in this town to-night threatened the destruction of the town, but was finally extinguished.

REBELS ATTACKED VILLAGE.

Ten Chinese Soldiers Killed in Fight With Insurgents.

Hongkong, June 13.—Insurgents have attacked the village of Yung Chung in the prefecture of Wei-chow, where they burned the military garrison. A provincial punitive force went in pursuit of the insurgents, and engaged them in a bloody conflict at Patssetan, not far from their stronghold. Ten of the soldiers lost their lives. The Viceroy of Canton is considering a suggestion to open Wei-chow as a treaty port.

The Saturday afternoon is the oldest British holiday. It originated in the eleventh century, when an edict of King Canute enacted that every Sunday be a day of rest. From Saturday noon to Monday dawn.

PIANO FACTORY DESTROYED.

Number of Firemen Overcome by Smoke—Property Loss Placed at \$150,000.

New York, June 13.—Fire in a big piano factory at 137 Ninth street and Southern Boulevard, the Bronx, occurred by Winter & Co. and Heller & Brooks, gave the firemen a hard fight early to-day. The building was destroyed and only the hardest kind of work kept the flames from spreading to the surrounding structures. A dozen firemen were overcome by smoke, and three of them were sent to hospitals. The loss of the piano factory was \$150,000. This includes a number of finished instruments. Only the walls of the factory remain.

NEWSPAPER DEAL.

H. Harnsworth Has Purchased the London Globe.

London, June 13.—The Globe, the oldest evening paper in England, has been purchased by Hildebrand Harnsworth, brother of Lord Northcliffe. The paper is announcing the change, saying: "No break will take place to our old traditions, and no change is contemplated in our policy."

SLAIN BY HIGHWAYMEN.

New York, June 13.—August Meyer, a well-to-do shoe dealer of Brooklyn, was severely beaten by highwaymen and died a few hours later in the hospital. One of the alleged assailants, Nicholas Pennimore, 22 years, is under arrest. Two others escaped.

DROWNED IN STREAM.

Springfield, Ill., June 12.—Mayor Griffiths, of this city, was drowned this afternoon while endeavoring to ford a stream of water on horseback, southeast of this city.

Margaret Lady Heytesbury has been elected a district councillor for Hoxley ward. She has been councillor of the parish council for three years.

SUITS MINISTER.

Rossland Merchant Enters Action Against Rev. J. P. D. Knox.

Rossland, B. C., June 12.—A writ has been issued in the Supreme court by George Agnew, merchant, of this city, against Rev. J. P. D. Knox, pastor of the Methodist church. The writ claims damages against the minister for slandering Mr. Agnew, who is a prominent member of the flock, until recently superintendent of the Sabbath school. There has been ill feeling existing between the parties for a long time and it culminated a short time since, when the pastor, in the presence of the Sunday school board, demanded Mr. Agnew's resignation. Mr. Agnew afterwards resigned, but his resignation was accepted by his fellow officers on the school board with regret and with it a hope was coupled that he would reconsider his action.

The writ does not disclose slanders for which damages are sought and solicitors do not at present seem desirous of giving publicity to the matter. It has been learned, however, that Mr. Knox is alleged to have stated at the board meeting at which he demanded Mr. Agnew's resignation, that he had heard so many reports respecting Mr. Agnew that he felt it his duty to demand his resignation as superintendent. The reverend gentleman did not state at the meeting what these evil reports were, but after it was over, in the presence of the number who remained, he made several specific charges reflecting on Mr. Agnew's business transactions. Among other things, he accused Mr. Agnew of selling goods on Sunday, apparently in breach of the Lord's Day Act, and that he sold tobacco to miners and others. He also made use of other like expressions reflecting on Mr. Agnew's business affairs.

POOL ROOMS RAIDED.

New York, June 12.—The police to-day raided seventeen alleged pool rooms in various parts of the city. Numerous telephones and slot machines were confiscated, but no arrests were made.

CLOSED GIRDLE
ABOUT THE EARTH

Valuable Service Performed By Three
Dominion Scientists—Canada
First in Race.

On December 30th, 1905, Dr. Otto J. Klotz completed his report of his expedition in 1902-04 across the Pacific to determine trans-Pacific longitudes. The Printing Bureau has just issued his report. The Canadian expedition did its work well ahead of the American expedition, and Canada was the first country to close the astronomic girdle around the globe, but the Americans got their results before the scientific public first, says an Ottawa dispatch.

This globe-girdling was a curious and important enterprise, for which we must in part thank the founders of the Pacific cable, and in part thank Mr. Sifton. To determine longitude with absolute accuracy, telegraphic connection is necessary; the observations must be linked by an exchange of times. Scientific men long had desired the trans-Pacific cable because it would enable longitudes to be linked across the great ocean. Greenwich is the international prime meridian; from it observations have been made east and west as far as Vancouver in one direction, and sundry points on the coast of Australia and New Zealand in the other. The gap was something like 8,000 miles, or one-third of the world's circumference at the equator. Apart from the enormous scientific gains which would accrue, important material benefits were to be expected from a closing of the gap. It is a matter of the utmost commercial advantage to determine with accuracy the exact situation of every port, every island, every coral reef. Sailors, ship-owners, insurance men all have an interest in such an enterprise.

As early as 1892 Dr. Klotz had expressed a hope that Canada might be the nation to carry this work through. A few years later the persistence of Sir Sandford Fleming made the Pacific cable a fact, and the way was clear for globe-girdling. Mr. Sifton had the breadth of mind to see the value of the enterprise, and gave his consent. The cable began commercial work in December, 1902, and Dr. Klotz, Dr. Werry and Mr. McDermid left Ottawa in February and March, 1903. There was a bit of reason in this promptitude, for the Americans were pushing on a trans-Pacific cable of their own from San Francisco to Manila by Honolulu, Midway and Guam; their scientists were following the cable hard, and if Canada was to win in this honorable and friendly competition, no time was to be lost. Indeed, the Canadian and American astronomers met in Honolulu, the American cable having been laid that far.

To summarize the dates, the Vancouver observations were finished by the end of 1903; the Pacific Islands, Suva longitude was completed on June

24th, and the final observation at Sydney was taken in January, 1904.

Thus a Canadian expedition, using a British cable largely promoted and partially supported by Canada, has done a scientific service of immense importance to the world. We have gained much from the scientific researches of other nations, and we are beginning to pay the debt by doing a bit of service on our own account.

The report, of course, is mainly a mass of mathematical computations, of purely technical interest, but some facts of general interest emerge from the columns of figures. For example, the accuracy of the results is most impressive to the non-scientific mind. A chain of observations has been run across Europe, Asia and Australia from Greenwich; another chain has been run across America; and when Dr. Klotz closed the chain, the combined error was the one-hundredth part of a second, or, if we put it in terms of space, about 4 feet. Eighty-four feet in 25,000 miles! And that is the combined error in many observations.

IMPROVING LINE.

Summer Work on the C. P. R. is Being Rushed.

"Conditions in the Kootenay and Boundary districts were never better than at present; prosperity is everywhere, and at the Greenwood and Boundary Falls smelters preparations for increased capacity are being made," said F. F. Busted, general superintendent of the C. P. R., who has just returned to Vancouver. Mr. Busted, accompanied by Messrs. C. E. Cartwright, division engineer, and W. O. Miller, fuel and car service agent, spent ten days on an inspection tour in the Interior.

The summer appropriation work all over the Pacific division is now well under way. At the bridge over the Columbia river near Revelstoke, great progress has been made with the erection of the piers, and these have now been built up to a point beyond the reach of high water. The steel for this bridge will be on the ground this fall.

CRUELTY TO LITTLE GIRL.

A pitiful tale of cruelty to a six-year-old girl was told Wednesday to the Children's Aid Society, says the Vancouver News-Advertiser. The child lives with her parents on Westminster road, in South Vancouver, and it is alleged that at 10 o'clock on Tuesday night she was turned from her mother's house half clad and without boots and stockings into the pouring rain. The child aroused some neighbors and told of drunken men in the mother's house. They notified Police Constable Treiman, who took her home, and later removed her to the home of Mr. and Mrs. McDonald, where she stopped for the night. It is quite possible that an investigation will be made by the Children's Aid Society.

Zulus are able to travel in an emergency at an astonishing rate. Some will cover as much as 100 miles in six hours.

JUMPED FROM TRAIN.

Unknown Foreigner Who Was Stealing a Ride Instantly Killed.

An unknown foreigner jumped from C. P. R. transcontinental No. 96 east of Winnipeg on Saturday morning and was instantly killed. At the time the limited was running at a high rate of speed and the brakeman found the foreigner stealing a ride on the platform of the train. As the man was in a dangerous position the trainman ordered him to come inside, intending to put him off at the next stop, a few miles further east. Instead of complying the man jumped to his feet and sprang from the platform, evidently fearing that he was to be placed under arrest. The train ran on to the next stopping place where the crew of a freight was notified of the happening. A search was made and the body of the man was found beside the track. His head had struck on a rail and death had apparently been instantaneous.

SUICIDE AT SEATTLE.

Doctor's Wife Hanged Herself With Rope Made of Pieces of Sheet.

Seattle, June 13.—Mrs. Emma Harrison, wife of Dr. W. L. Harrison, committed suicide last night by hanging herself with pieces of a sheet, which she had attached to the top of the water tank in the kitchen of her house at 1307 Thirteenth avenue. Dr. Harrison discovered the lifeless body of his wife when he entered his home shortly after 1 o'clock this morning.

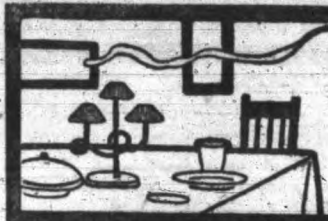

When the deed was committed the woman's 5-year-old daughter was asleep in another room. Her brother-in-law, H. C. Harrison, had just retired to his room when he discovered what had happened. Mrs. Harrison's good-night she appeared in her usual condition.

Dr. Harrison can assign no reason for the suicide unless it be despondency over imagined ill-health. It is claimed that Mrs. Harrison several times threatened to end her life.

IN POLICE CIRCLES.

In the city police court yesterday A. Comb was charged, upon the information of Claude Hooker, a twelve-year-old boy with assault. R. Lowe appeared for the prosecution, and G. Murphy for the defence. The story told by the boy was that the defendant brutally assaulted and kicked him, while the defendant's wife and the boy were having a discussion in the street. The defendant came down the stairs while this discussion was on, and according to the witness, blacked his eye and kicked him. A very different story was told by Mr. Comb, in which he referred to many occasions upon which the plaintiff had used insulting language to Mrs. Comb and had ill-treated the defendant's child. He characterized the plaintiff as "fresh." Magistrate Hall fined the defendant \$1.50.

Peter Hansen, a Dane, was sentenced to one year's imprisonment by Magistrate Hall for breaking into the Royal Arm Hotel restaurant and stealing \$1. Hansen was paid off from the steamer, Selma, last day's run upon the vessel's return from saving the Northwestern, and since leaving the wrecking steamer had been spending his money freely on intoxicants. When sentence was passed upon him Hansen expressed disgust and surprise, and characterized his penalty as too severe.

THE MEN'S CORNER

By PETER PRY SHEVLIN

Trade Talks—The Advertising Man

The advertising field not only offers great possibilities because of its limitless horizon, but for another reason appeals to the young man. This is because the advertising business is like the newspaper field, inasmuch as it offers an immediate chance of a living salary to a young man with no other equipment than a good education, but only when accompanied by an alert mind and an instinctive knowledge of humanity. Practically every other profession is closed to the intelligent young man—if he doesn't possess the special training of the business college.

It is needless to make any claim for the advertising expert, for he advertises his success wherever there is printer's ink and billboard paint. The field is roughly divided into the men who create advertisements and the solicitors who secure them for the magazines and newspapers. The advertising writer must possess a certain amount of literary ability and an artistic eye; the advertising solicitor, however, must bank on business ability, persistency and a certain amount of "gall." It stands to reason that as the advertising solicitor of a publication is the man who directly "brings in the money" and has to cross wits with the shrewdest business men of a community that the openings are greatest and most plentiful in this particular field.

The foregoing assertion that the advertising and newspaper business do not require special training may be slightly misleading. As a matter of fact, there cannot be too much special knowledge and training for each, it being a case of "the more the merrier," but in the last analysis success is largely a matter of native ability and climbing from the lowest rungs by hard work. Study in the numberless advertising schools, acquaintance with the many advertising magazines is bound to make this climbing easier and quicker; it may help win success for a person who could have attained a like fulfillment solely through native ability. It is a prime desideratum.

Salaries run as low as \$12 a week for the beginner to \$30 for the middle class, or "average" man; in most cases percentage money, based on results, come as a bonus. From \$50 to \$100, runs the gamut of men who have achieved substantial success; after that, the horizon is limitless.

One great virtue of the advertising business is that it is much unlike most other professions where a man may work years at a certain salary and never really know whether he is climbing. A month or two will tell the advertising beginner whether he is a success or not, and tell the story conclusively, via the pay envelope or dismissal. The pace is so fast that it quickly weeds out incompetents and gives them an immediate chance to switch to something that may be more congenial.

Every community holds lots of young men who have an inclination for literary work, for which hard-hearted editors have not a like inclination. To them is suggested that they go to several small merchants in their vicinity, after first studying each business requirement. Let them bring to each merchant several "changes of copy," i. e., a set of new ads that are more crisp, catchy and more appealing to the public. Small merchants have not the time to frame their own ads even if they have the ability, neither have they the money to hire a regular advertising man. A young man who wishes to test his abilities in this line may secure five or six merchants who

will pay enough—in the aggregate—to recompense the beginner for advertising after his regular work or studying hours.

But, above all, if you would be an advertising solicitor have tact, magnetism and persistency. If you would be an advertisement writer have an artistic eye for type display and a knowledge of human nature coupled at all times with new ideas.

PETER PRY'S PHILOSOPHY

Don't starve your brain to stuff your pocketbook.

Many a "successful man" at heart knows himself to be a miserable failure.

A rich father is no excuse for a young man to be worthless.

Anticipating tomorrow and regretting yesterday is a foolish way for a man to spend his time.

"Isn't the country air perfectly lovely?" The modern girl shrugged her shoulders coldly, rejoicing: "Oh, I don't know! I had my tire inflated with it this morning and I don't notice much difference."

A Petition by the Worker

These are the gifts I ask
Oh Thee, Spirit serene:
Strength for the daily task,
Courage to face the road,
Good cheer to help me bear the traveler's load,
And, for the hours of rest that come between,
An inward joy in all things heard and seen.

These are the things I faint
Would have Thee take away:
Malice and cold disdain,
Hot anger, sullen hate,
Scorn of the lowly, envy of the great,
And discontent that casts a shadow gray
On all the brightness of a common day.

Great Business Axioms

Though Marshall Field, the greatest merchant in the world, has been dead slightly over a year, his business philosophy will long endure among the men of the nation.

Never give a note.
Never borrow.
Work always on a cash basis.
Never buy a share of stock on margin.
Buy for cash and sell for short time.
Never heavily mortgage real or personal property.
Hold customers to strict enforcement of their contracts.

Labor

Toil swings the axe, and forests bow,
The seeds break out in radiant bloom,
Rich harvests smile beneath the plow,
And cities cluster round the loom;
Where towering domes and tapering spires
Adorn the vale and crown the hill,
Stout Labor lights its beacon fires
And plumes with smoke the forge and mill.

Pride may go before a fall, but it is just then that the right kind of pride puts a man upon his feet again.

Of course, there is always room at the top—if you can push the other fellow off.

Meals for the Invalid—By Sara Cranford

When a member of the family becomes suddenly ill there is usually found to be few or none of the little things which go so far toward making an invalid comfortable in the house. Very few are prepared with the bedside table, the tray fitted with suitable dishes, the small hemmed tray-cloths, the numberless little things that are at once found to be necessary. Every housekeeper should have these things ready at hand, to be put in use at short notice.

The first essential is the table for the tray. These are lapboards fitted with short legs to be had at a reasonable price, but perhaps the best of the tray holders is the white enameled iron table, standing on a support, which consists of a long arm, which reaches under the bed, to give a solid base, and an upright which may be lightened or shortened at will, so that the table top fits down snugly over the lap.

Many small covers are needed for the tray itself. These may be bought quite cheaply, or may be made from a table cloth which has been better days. Enough must be provided so that each meal may have its fresh cloth, but, as they are simply hemmed around the edge to about an inch in depth, they are easy to make and launder nicely.

Some of the suitable invalid trays are, however, very tempting. This one illustrated was made of strong light wood, with handles, all enameled with cream-white, and set with cream-white dishes, edged with gilt. The tray held a pretty sugar bowl, a little coffee pot, a covered

dish, an egg cup, and an attractively shaped cup and saucer; besides this there is a broth set with a good-sized covered bowl and a toast rack.

As to the invalid's food, there are certain staple dishes which it is well to know just how to make. Of these one of the simplest is:

BEEF TEA—Chop fine half a pound of raw, lean beef, and let stand in an earthen dish in a cold place for some hours. Cook over the fire, stirring constantly, until vapor begins to rise, then remove from the fire. Strain through a cheesecloth, pressing the liquid from the meat. Season with salt.

POACHED EGGS—Add a few grains of salt to the white of an egg, beat until thick and turn into a buttered glass or a china bowl; form a ring on the top for the yolk. Set the glass on a trivet, in a covered dish of lukewarm water, and let cook until the egg is set and rises in the glass. Do not let the water boil around the glass.

EGG NOGG—Beat the yolk of an egg; add one or two tablespoonfuls of sugar, and, when mixed with the egg, a tablespoonful of sherry or brandy; mix again; then add, gradually, a cupful of milk, and lastly, fold in the white of the egg, beaten stiff.

A Modern Eight Room Brick House

Financial—Tricks of the Trade

Newspaper exposés and government disclosures have been proving for the past few years to the great public that their investments have often been in stocks which were given fictitious values by great manipulators; that even bank statements and market reports were juggled to suit the investors; that in most cases he was one of the puppets that danced without knowing the real reason why; whenever the master hand pulled the string, so dramatic have been these revelations and their effects that the ordinary reader has but glimpses at the mechanism that made them possible.

One of the best-known and most widely practiced methods of fleecing the investor is "watering" stock. This means placing a fictitious value on a corporation. The "water" is the amount of stock issued in excess of intrinsic value. There is no legal check placed on this procedure, though explained this way on the witness stand, immoral and thieving. E. H. Harriman the present-day conscience brands it as quite naïvely.

"It is capitalizing the future," he said. As a matter of fact, nearly every corporation stock in the country has been plentifully "watered" by its promoters at some stage in its history. Many of the companies whose future has thus been capitalized have been blessed with such a natural increase in business that this "water" has been gradually squeezed out. Even in these cases the original stockowner has been mulcted, for in this interim his stock would have otherwise earned large dividends and attained higher market value.

The second and most popular pastime of the great stock manipulator is known as "tagging the market," and it can be divided into a hundred tricks, known and secret, of forcing stocks up and down, making the "lamb" buy them when the stock is high, scaring them into selling when the stocks slump low.

One of the most brazen of these methods can only be practiced by a certain class of millionaires, sometimes called the "Standard Oil group" and other names quite as misleading.

Any five of these men, through the great railroads and corporations they direct, may directly or indirectly control \$4,000,000 in the national banks. On a cer-

tain day, it will be found that 20 millions have been transferred from the banks to the trust companies. The next day the bank statement is issued, and (as trust companies do not figure in it), it is labeled "weak"—the New York money market is apparently "tied up." Stocks accordingly take a downward plunge, "lamb" frantically sell at the lower price, financiers gladly buy. Next day the millions are returned to the banks and stocks bob up again.

Probably the most popular way to juggle a particular stock is by "wash," or make-believe, sales—a trick possible to the shabby fry of promoters. For instance, two promoters wish P. D. & Q. stock to show a lively upward movement, to indicate a "boom" that will attract investors and get it off their hands at a good price. Promoter A goes to his broker and tells him to try and sell for him 10,000 shares of P. D. & Q. stock. There is no hurry, he instructs him, but he wants the highest price possible for them.

At the same moment Promoter B is telling another stock broker he must have 10,000 shares of P. D. & Q.

"I must have them," he declares, "buy them at any price."

This broker makes a hurried call for P. D. & Q. stock and finds another broker has it for sale at a higher price than the market. Being both innocent they dicker earnestly for their clients.

Accordingly Promoter A has the money and Promoter B the stock. A day or so later the two wily promoters meet and exchange their possessions, and matters are the same as before. When these "wash" sales are multiplied and magnified through a number of other brokers, a higher market value is put on the stock, day by day. Every day sees it quoted higher and the scramble of the lambs to buy it commences. Then the promoters unload at high prices. Brokers are forbidden under heavy penalties from dealing in these "wash" sales, but it is harder for the broker himself, much less the public to know that they are "wash" or fictitious.

Our "ups and downs" are only the hills and valleys we cross in our eternal quest for happiness.

What to Bring Home from Abroad

The average woman who goes abroad, with a small amount of money to spend and the intention of bringing back as much as possible without having trouble with the custom house can save a very large amount by judicious purchases. For instance, take soap, perfumes, lotions, creams, powders and toilet articles, which are extremely high in price in America. A clever shopper can buy in Paris for a franc (twenty cents) soap that costs a dollar a cake over here, and all toilet articles cost in much the same proportion.

If these articles show any signs of use, or the wrappers are broken, they will be classed as personal property, and in all likelihood will come through without duty. Here alone is a large saving. There are few women who have the means who do not indulge in these daily toilet accessories, and their large cost in America is well known to American women.

The woman who wishes to purchase advantageously abroad can put these articles first on the list. Combs and brushes as well are very low in price and high in quality abroad, but these may be bought better in London than in Paris, and are made to last a lifetime.

Laces can be had on the other side for prices which simply amaze the woman who has come to look upon real laces as quite out of her reach. A veil costing perhaps six francs in Paris sells for five dollars in New York.

Though cheap, it must be remembered that the London gloves and Paris corsets do not fit the American woman. This is true also of the French gloves. For this reason corsets, gloves, shoes and ready-made lingerie should be blacklisted by the American abroad.

Embroideries, silver and jewelry of all kinds seem to be much cheaper abroad than here. These things will have to pay duty, however, and the duty on jewelry is quite large. One hundred dollars' worth of things for one's own use are allowed free of duty, however.

THEN SHE WEPT

Mr. Dunn Wright (after a violent quarrel over her weekly money)—"I'll have the last word though I should die for it."

Mr. Dunn Wright (quietly)—"You can have it, my dear, on those terms; and welcome."

Lady (at telephone)—"Are you there? Are you Mr. Frizzle, the barber? Well, I want my hair done for a party this evening."

Mr. Frizzle (at the other end of the wire)—"Certainly, mum; I'll send a boy round for it in five minutes."

A Two Story Modern Brick House

By Chas. S. Sedgwick, Arch., Minneapolis—Costing \$5,500.00 Exclusive of Heating and Plumbing.

Good, hard brick is a material that will never pass into disuse, and the prospective homebuilder is always wise to think long over the question of the use of brick before discarding it and using wood for the exterior of his future home. In the early colonial days, when everything about was new, lumber was plenty and cheap, brick was scarce and expensive, there was every reason for building the houses entirely frame construction. The rapid disappearance of timber, the increase in the price, the increasing amount of brick being made every year and the great variety has brought the brick question down to the medium-sized and even small houses.

The first cost is still more than wood, even at the advanced prices, but the difference is not nearly as great as it used to be. The use of brick as a veneer on the outside of frame structures is an old practice, and was in common use in the outlying districts of New York city 30 years ago, and this method of construction is frequently employed at the present time. In the judgment of the writer, it is far better for homes of medium cost than either siding or shingles, and the cost is not much greater. It has become quite common of late to build modest homes and the more expensive residences with a very rough-faced vitrified brick, variegated in color and of rugged appearance, and to trim the same with either smooth-cut stone or terra cotta. The plain smooth trimmings relieve and give a finished appearance to what would otherwise be a rough and ugly appearing exterior.

Cement walls have been used in all countries to a greater or less extent for many years, and the use of this material for exteriors in our own country has rapidly increased during the past ten years, but this will not do away with the use of brick. The majority of people prefer the looks of a well-treated brick wall to a cement surface.

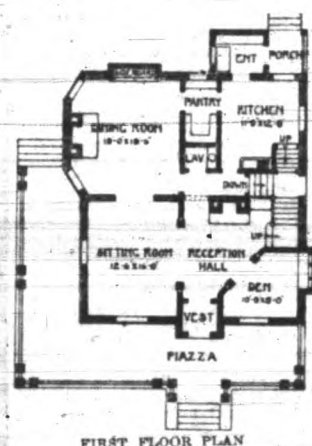

The house that we are illustrating this week is such a one as will meet the general requirements of the average merchant or tradesman. It is a small-sized house of eight rooms, nearly square in outline, designed to be built of a good quality of brick for the outside walls, the author suggests the use of a light-colored cream brick, using a gray cut stone for the "coigns" on the outer angles and for the

foundation, water table, sills, etc. The roof is to be covered with a green Spanish tile or with good shingles stained dark green, the trimmings, cornices, window frames, sash, etc., all to be of pure white. The floor of the piazza should be of concrete, with either a cement top or tile, and the steps of cut stone; the broad piazza extends across the front and on one side back to the dining-room, with steps down at the rear to the lawn.

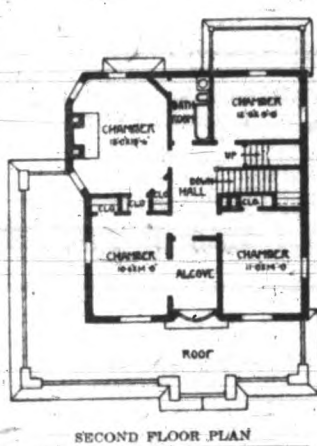

The size of this house on the ground is 31 feet by 34 feet. The first story is 8 feet 6 inches in height. The front of the first story is 31 feet 6 inches in height, the second 8 feet 6 inches in height. The front of the house is symmetrical in design, with central vestibule entrance, opening into a reception hall, at the right of which is a small door. Opposite the entrance is a fireplace, with the main staircase leading up at the right of the same. The sitting-room opens at the left of the reception hall, with a wide archway. Back of the sitting-room is the dining-room, and at the rear of the reception hall is the kitchen, connecting with the dining-room through the pantry. There is a convenient lavatory opening out of the rear hall. The main staircase is made with the combination of the stairs to the basement, and grade entrance and rear stair connecting and thence up to the second story.

In the second story are four good chambers, one with fireplace, the corner chamber with alcove, and opening in connection with the chamber over the dining-room, ample closets, bathroom and stairs to third story. The third story is arranged with a large playroom and servants' rooms. The floors throughout are hardwood, hardwood finish in the first story and enamel finish in the second story. The basement is finished with laundry and drying-rooms, vegetable cellar and furnace room.

It is estimated that this house can be built complete, exclusive of heating and plumbing, with solid brick walls for \$5,500, if the walls are veneered with brick it can be built for \$5,000, or the house can be constructed entirely of wood for \$4,500. The author will be pleased to answer all communications and give any information that may be required regarding this house, its construction, finish and decorations. It is often the case that the interior arrangement of a house, planned when the exterior design would be better liked if it were modified in detail or roof treatment. The design of this house is in the Italian renaissance, the details are refined and the general treatment is symmetrical.

FIRST FLOOR PLAN

SECOND FLOOR PLAN

Summer Gowns and Materials—By Dorothy Dale

Some charming designs for summer wash materials are shown in the group drawing. The figure at the left shows a costume of pale pink batiste, trimmed with bands of cream batiste embroidered in pink, these bands being used both on the skirt, bodice and open sleeves.

A design in hand-embroidery in pink and cream white decorated the bodice front, the little yoke or scalloped collar being outlined with narrow cords of black taffeta silk, which give a most becoming relief to the all-pink of the batiste. Black taffeta buttons and cords also ornamented the back of the bodice. The chemise and undersleeves were of very sheer white mull and Valenciennes.

The waist pictured is an excellent design for heavy linen, the model being in white, with the little revers showing a design in eyelet embroidery done in white wash cotton. The little plaited frills down the front and about the waist were of sheer white lawn and lace, and were so made that they could be laundered and replaited separately.

The third sketch shows another practical tub frock, the skirt of this costume being so made in a plain gored circular cut that it can be unbuttoned down the entire length and laid out flat on the table for ironing. Hand-embroidered scallops and mother-of-pearl buttons trimmed the skirt, the little bodice showing in detachable yoke of fine lawn and beading. This frock was of white linen, the scalloping being done in white wash cotton, and is especially practical for seashore wear.

In buying colored linens it is economy in the end to select the better, and consequently, more expensive grades, as the cheap imitation linen weaves are apt to fade very quickly. In fig. all white materials, however, there are excellent imitations of linen, especially in the heavy qualities to be had, which can be made up with just as good effect as the expensive real linens. I have seen several delightful little frocks made of a cotton material called "cotton cloth," which comes at 12 1/2 cents a yard, which had the effect of much more expensive linens when cleverly made and ornamented with a little hand embroidery. This material is also excellent for separate white short skirts and blouses perfectly. All these

and heavy cotton materials should be shrunken first before being made up, and if any cotton braids or embroidery cottons are used they should also be shrunken before using.

The materials shown this season for warm weather gowns are unusually artistic in coloring and design. There is a decided fancy for pattern and bordered fabrics, and frocks of pale blue, lavender or pink batiste, trimmed with deep flounces and insertion of mull to match, embroidered in white, are also much in favor. These frocks are rather expensive in the initial cost, but as the making is not difficult, and no further trimming is required, they really cost little more than a plain mull elaborately trimmed with lace insertions. The bordered cottons are less expensive, and are delightful when properly made. A favorite pattern shows large round discs about the lower part, with smaller discs in graduated sizes above, these dots being printed in color on a white ground. A new idea in making up these bordered patterns is to use the material cross-wise, instead of lengthwise, as is common with these extra wide-bordered stuffs. The border, used in this way, is plaited in to form a front panel running the entire length of the gown, shaped closely by plaits about the waist, but falling loose at the lower part of the skirt, the effect being obtained in the back. Fine lace insertions or cluny beading usually ornaments the bodice of such a frock, a sheer yoke and undersleeves also being introduced.

Other bordered-fabrics show lovely flower designs, and in the very sheer stuffs, such as mousseline or tulle, many of the novel gowns show bands and bands of black/mousseline lot in just outside the flowered border. Where the material is self has not this black border the dressmaker often adds it by inserting a band of irregular lace. Plain, brown or green, or any of the lighter colors in harmony, can also be introduced in the same way about the bottom of the skirt, and about the guimpe and sleeves.

This is undoubtedly to be a "color" season, and even the white costumes in a great many instances show the introduction of color in some way. For instance, many of the sheer white blouses or frocks are embroidered in some light color, and mention has been made in former articles of the use of sheer bands of tulle and of organza in color, set in rows of white material.

GRAND LODGE OF ODD FELLOWS

OFFICERS ELECTED FOR ENSUING YEAR

Reports Presented Covering the Last Season's Work in Province of British Columbia

The Grand Lodge of Odd Fellows, at its meeting on Wednesday, in the Odd Fellows' hall, in Nanaimo, was presided over by D. G. M. Thos. Emberton.

The local order of the Daughters of Rebekah, through Mrs. T. Aitken, presented an address of welcome and Mayor Plante welcomed the visitors on behalf of the city.

He said Nanaimo people were always pleased to welcome any visiting body, the Odd Fellows more than any, perhaps with the exception of the Knights. He would turn over the town to them and asked them to make themselves at home. He hoped that they would mingle pleasure with business and be enabled to take in some of the many beautiful spots around the neighborhood. He would have them remember that this was not regular Nanaimo weather. Some jealous neighbors from the mainland had been tampering with it.

There was little business transacted at the morning session other than routine. At the afternoon session the reports of the finance and supplementary committees were adopted.

The Odd Fellows' home committee reported a balance on hand of \$5,195.31. At the evening session the reports of the State of the Order, Printing, and Judiciary committees were adopted.

The committee on petitions recommended that charters be granted for organizing Rebekah lodges at Greenwood, Cranbrook, and Fernie. The report was adopted. The committee also reported that the Rebekah lodges showed a large increase in membership, and recommended that a Rebekah Assembly be instituted.

On motion it was decided to institute a Grand Rebekah Assembly at the next session of the Grand Lodge, and a committee was appointed to draw up a constitution for the same.

The election of Grand Lodge officers for the ensuing year resulted as follows:

G. M.—Thos. Emberton, Rossland.
D. G. M.—H. Fulton, Ladysmith.
A. W.—R. A. Vancouver.

seems to have enjoyed a greater degree of prosperity than the subordinate lodges during the year. Phoenix Rebekah Lodge No. 18, was instituted at Greenwood; Mayle Leaf Rebekah Lodge No. 19, at Cranbrook; and Esther Rebekah Lodge No. 20, at Fernie, showing a gain of four lodges. The total membership of the Rebekah lodges on December 31, 1906, was \$38, an increase of 131 members during the year.

Summary of Grand Lodge funds:
Balance in hands of Grand Treasurer, per last report, \$2,068.45
Cash received and paid to Grand Treasurer, per statement, 4,986.92
Total, \$7,055.37
Less orders drawn on Grand Treasurer, per statement, 4,514.85

Balance in hands of Grand Treasurer, per statement, \$2,540.52

The Grand Master, P. E. Simpson, in his report, said in part as follows:

In reporting on the work of last year in this jurisdiction, I must preface what I may say with an apology for some of the delinquencies I have been responsible for. I can only say that the year has been an unfortunate one for me personally, having had to contend with much sickness in my home, and other matters arising that prevented the close attention to the duties of the office that should have been given them. A fact that I regret very much indeed. However, I have done, under the circumstances, the best that I could, and trust that the members of the order throughout the province will appreciate the situation.

In greeting you this session, I can do so with the knowledge that the order has been prosperous the past year. The number of members in every branch has increased, but what is still more gratifying, there is no question as to the increased interest manifested in the work of the order throughout the entire jurisdiction.

I deem it just and proper at this time to make a few recommendations for what I consider the good of the order, and in doing so I wish to impress upon the minds of every representative the fact that I have only one idea in view, and that is the advancement of the order in the province of British Columbia.

I believe that it would be to the interest of the order to reduce the basis of representation. With the growth of the order in this province, the Grand Lodge is growing both in numbers and expense, and a reduction on the basis of representation would not affect the efficiency of the work, and would reduce the expenses and tend to expedite the transaction of business.

I am pleased to know that there are to be new lodges instituted at Princeton and Penticton, two towns that are prosperous, and that very prosperity gives assurance of two successful lodges. In this connection I would suggest that the Fellows exercise great care in this endeavor to promote new lodges.

I want to take this opportunity to thank the members of all the I. O. O. F. lodges of British Columbia for the many courtesies extended to me during my term of office. They have been lenient over my shortcomings, considerate at all times, and kind to the utmost degree. During the remainder of my life, their unselfish kindness will always be remembered, and their great assistance fully appreciated.

During the year there has been the usual number of dispensations granted for balls, public installations and entertainments that are not of sufficient importance to take up the space in the report, a record of which can be found in the latter file.

The reports show a good general feeling prevailing among the lodges in this jurisdiction, but there is a lack of interest in any material growth or increase in the work. New lodges have been organized at Fernie, Greenwood, and Cranbrook during the year, and these lodges are doing exceptionally well, so far as I can learn at this time. In every town where a Rebekah lodge is receiving proper encouragement from the subordinate lodges, the former's field of usefulness has been greatly widened and the general results have been extremely beneficial. Throughout the entire province the Rebekah lodges are doing excellent work and it is the duty of every member of subordinate lodges to do everything in their power to advance the interests of these lodges.

WOMEN'S NEGLECT SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the story of a girl or woman who says, "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere, or anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weaknesses.

These symptoms are but warnings that there is danger ahead, and unless needed a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Clara Beaubien, of Beausport, Quebec, writes:

Dear Mrs. Pinkham: For several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it equal for the benefit of women.

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

LICENSE FOR FAIR.

Oak Bay—Commissioners Met and Granted Application.

A meeting of the license commissioners for the municipality of Oak Bay was held Wednesday afternoon in the school house, Foul Bay road, to consider the request of the Victoria Driving Club for a license at the track meet next week and another from the Agricultural Association for a license during the fair week.

In addition to the commissioners there were present W. E. Oliver, reeve of the municipality council, Councillors Newton, Fernie and Rattenbury; D. E. Campbell representing the Victoria Driving Club; J. E. Smart and J. S. Yates, representing the Agricultural Association, and as well representatives of the Women's Council and the Citizens' League.

There was a vigorous opposition to the granting of these licenses by the representatives of the two latter bodies, and Mrs. Andrews, representing the Women's Council, and Rev. Le Roy Daykin, on behalf of the Citizens' League, spoke strongly against the issue of any intoxicating liquors at the grounds during the exhibition week. The commissioners, however, decided that they would grant the licenses in both cases.

SUBURBAN TRAIN.

Service to Shawnigan Will Commence on Thursday of Next Week.

The suburban train service on the Esquimalt & Nanaimo railway, between this city and Shawnigan Lake and intermediate stations, which has proved so popular in the past two years, will be inaugurated on Thursday next, the 20th inst., and will provide a similar service to that maintained last year.

Already a number of family parties are being made up to spend the warmer months at Shawnigan Lake and other points along the line, and with the suitable service provided there will no doubt be a larger number of campers than ever.

Shawnigan Lake presents a most picturesque sight during the summer evenings with a number of pretty summer cottages and a large quota of tents, and a more healthful and enjoyable manner of spending the warmer days cannot be imagined. The usual cheap rates will come into effect with the beginning of the suburban service.

SOCIAL EVENING.

Pleasant Time Spent at the Rooms of the Y. W. C. A.

A very successful social entertainment was given recently under auspices of the Young Women's Christian Association in the parlors belonging to the organization, Fort street, about seventy-five ladies being in attendance. The committee in charge of the arrangements provided a most enjoyable musical programme, including vocal selections by Mrs. Crawford, Miss Thompson, Mrs. Forster and Miss Bernice Scowcroft, the latter young lady also contributing an instrumental selection.

After the programme had been rendered light refreshments were served. A guessing competition was held, the winner being Miss Pennan, who was correct in naming the newspaper advertisements from which the name of the advertised article had been removed.

The thanks of the association are due to the following helpers: Subscribers—Mrs. Hobson, \$25; Mrs. Kirk, \$2; Miss Pennan, \$5; A. Friend, \$5; Miss Cressie, \$2; Mrs. Wilson, \$5. Monthly subscribers—Mr. Carson, \$5; Spencer, \$5; Heisterman, \$5; Mr. Kent, \$5; Mrs. Wollaston, \$5; Co.

DRURY & MACGURN 34 GOVERNMENT ST.

MODERN HOUSE—8 rooms, ample grounds, situated close to the fountain, 1 minute's walk to car on Douglas, or 2 minutes to Esquimalt line; price \$6,000. Owner authorizes us to grant discount of 15% per cent. if sold within next few days. He needs some money. This is a rare opportunity to secure a good home at a low price. It is a "snap" as an investment.

CHINAMAN ARRESTED.

He is Suspected of Having Robbed the Montana Restaurant.

A sequel to the robbery of \$30 from the Montana restaurant on Monday evening was the arrest of a Chinaman named Hop, formerly employed at the Montana, by Detectives Perdue and Palmer yesterday. The two sleuths, in company with T. Goldsmith, the proprietor of the Montana, took a trip around Chinatown yesterday afternoon and came upon Hop coming out of a store. When the Celestial observed them he drew forth a bag from under his coat and handed it to a companion with a muttered request. The detectives, however, were too quick for him and intercepted the bag which was found to contain about \$70 in silver.

This money, Hop said, was received from a cannery where he intended to work as advance pay, but later he said that he had won it in a lottery.

Hop was taken to the police station and Mr. Goldsmith identified a coin

which was found in the bag as being one that was taken from the restaurant till. This coin was a dollar which had been gilded and it had some of the gilt upon it.

The action of Hop while the case was being investigated in leaving the restaurant without notice furnishes more evidence against him. He left several of his belongings behind him and slipped away on Tuesday, while Detective Palmer was investigating the theft. Hop will come up for trial in the police court to-morrow morning.

Shaw, Leslie R.

Smith, Hazel M.

Smith, Laura L.

PRINCE AS CHAIR BOY.

It is well known that musical endowments above the average crop out from time to time among members of the British Royal family. Prince Edward, eldest son of the Prince of Wales, seems to be the latest instance.

When he entered lately as a cadet at the Royal Naval College his father asked the officials to try him for the college choir, stipulating that no favor be shown him, but that he be accepted or rejected solely on the merits of his voice.

The youngster has now gone through the tests and emerged successfully. He recently made his first appearance as a choir boy at Divine service.

It is stated that the young Prince, who is proud of his success, has a singing voice far above the average.

GOLF BALL KILLS A FISH.

A remarkable golfing experience is reported from Newark, Nottinghamshire. Henry Beavor, solicitor, laying from the fourth tee, drove his ball into the river Devon and killed a fish nearly two pounds in weight. Both ball and fish bearing the mark of its injury.

THE HOSPITAL REQUIRES AID

(Continued from page 1.)

be one of the determining factors in deciding to keep to the present system. A prospective successor had applied to the matron that day.

A resolution was carried to empower the house committee to advertise if necessary in the papers at Vancouver and also in Victoria.

Then followed a discussion on a petition to the board from the wardmaids for an advance in their wages of \$5. from \$20 to \$25. It was pointed out that they had already been given an increase from \$15 to \$20, and that their duties as explained by the resident doctor were not, if one of their number be accepted, excessive. They had breakfast set for them at 1 a.m. They had one hour off for dinner, which the nurses did not get, and were off duty for the day at 6 p.m. In addition to this they had each of them a half holiday once a week, and one Sunday free a month, and no night work. One of their number certainly had more to do than the other had the nurses' table to attend to and in consequence had to be down at 6 a.m., and as the dining room was too small to accommodate all the nurses, one sitting, she had three "tables" at meal time. In the event of a late operation being necessary in the operating room, she had extra work in waiting to serve the surgeon to the nurses who had been present at the operation. She seldom finished her work before 8 p.m. On the other hand while the others got \$20, she received \$25, and if they gave \$25 to the others they would have, in justice, to pay her \$30.

The point was raised that they had been compelled to employ a Chinaman at \$25 to work in the wards, as they could not get a ward-maid to replace one who had left. The doctor explained that this was only an apparent rise in wages, as the girls here were not "scrubbers" in any sense of the word. They could not scrub as the Chinamen could or as the girls of the Old Country are trained to do.

Members of the board were confident that they would be able to obtain the services of girls from the Old Country who would be able to do this work. A Scotch lady informed one of the members that she knew of a number who would be only too glad to come, and they would be able to scrub.

In consequence the application of the ward maids was refused.

The commanding officer of H. M. S. Shearwater sent in a communication which he had received from the admiral, asking for particulars of terms under which, in cases of necessity, patients from any of His Majesty's ships could be admitted into the hospital, and if extra charges were made and what accommodation was provided.

The admiral will be advised that there is a standing scale drawn up by the hospital authorities on the subject, and that such patients have always been charged one-third of the regular charges, \$10 for an operation and \$250 a day.

As to accommodation, the rule was to give any commissioned officer a private room, a N. C. a "semi-room" and the petty officers and men were accommodated in the ward. Rates for all are therefore provided, and it was mentioned that two marines have received treatment since the rule has been in force.

The attention of the board was drawn to the fact that repairs and improvements, estimated to cost \$400, were needed to the laundry and boiler house, the present laundry being too small for the work.

The board agreed that the structure was not worth repairing, and that the structure on which the chimney stood threatened at any moment to give way because it was standing on rotten timbers. It was described as a rotten old shack. Moreover it was doubted whether the present building could be called sanitary, and it was very liable to be condemned by the health officer at his first inspection. It seemed to the board that the only thing to be done would be to build an up-to-date laundry and boiler house suitable to the requirements of a large hospital.

The matter was referred to a special committee, Messrs. Bone and Day were appointed as members of a committee to consider and report on the matter at the next meeting of the board.

The annual general meeting of the board will be held in the city hall at 4 p.m. on Friday, the 28th of June.

NEW SCIENCE AND THE OLD.

Alchemists Not So Strong in Their Theories After All.

Professor Ramsey delivered a lecture on the "Transmutation of Elements" at the London Institute the other evening, in which he stated that it was the opinion of the ancient alchemists that all nature, in its essence, was one; the idea was symbolized by a serpent with its tail in its mouth. We, in these days believed that nature was composed of separate elements from which no simpler substances could be obtained. Of such recent science had discovered many, even since radium was recognized by its spectrum as an element, scientists had made such strides in their experiments that already tentative names, of which he was sure his audience had not yet heard, had been given to substances which, perhaps, the near future would establish as elements also. Although it was no longer believed that one element could be transmuted into another, one of the greatest discoveries of modern times showed that one kind of energy could be converted into another kind. In every element there was energy. There was some which gave it out continually; radium was one. As compared with oxygen and hydrogen, radium emanation produced energy two and a half million times as great. The result which would follow from placing radium emanation in the neighborhood of the various elements was the problem which was at present engaging him, but upon which, at the moment, he could make no announcement.

FORGETFUL BRIDEGROOM.

Owing to the bridegroom forgetting the certificate and returning too late with it, a wedding had to be postponed at Branksome, Dorset, and the next day when the ceremony was performed, he forgot to sign the register, and had to be brought back.

FINEST YACHT ON COAST.

Doubtless many Victorians passing along the causeway yesterday and this morning admired the trim yacht lying at anchor in James Bay. She is the Anemone, of Denver, Colorado, and is the property of C. L. Tutt, a mining man, holding large interests in different parts of the country.

The Anemone is probably the finest yacht at present on the Pacific Coast. She is of 38 tons register, yawl rigged, and equipped with 125 h. p. auxiliary steam engines. She is built of teak wood throughout and furnished with handsome fittings.

Mr. Tutt has made the trip around the Horn in the Anemone, and last year secured second place in the ocean yacht race from San Pedro to Honolulu, making the trip in 14 days and 50 minutes. She is the only yacht at present on the Pacific Coast lying in the New York Yacht Club harbor.

Her owner is greatly pleased with the city, which, he says, possesses beautiful scenery and is especially enamored with the water front about the James Bay embankment, which, he states, is the best he has yet seen. The yacht leaves here today for Tacoma, where Mr. Tutt expects to meet his wife and son, after which he will start for an extended cruise in northern waters.

HIGH PRICED SOCKEYES.

Ten cents per fish will be the price paid for sockeyes at Rivers Inlet this season. Last year eight cents was the price, but the fishermen have determined that they will not accept less.

My first record was a climb of 18,750 feet up the mountain, said Mrs. Workman. Then I lost that by climbing Mount Bullock, 15,500 feet, and afterwards my records were: "D. H." 20,700 feet; the Koser Gully, 21,000 feet; Mount Chogo, 21,000 feet; Mount Blumung, 22,500 feet; and finally Nun Kun, 23,000 feet.

Six Good Values in Chiffoniers

CHIFFONIER—Elm, golden finish, top 17 x 33 in., stands 4 feet high, has 5 full length drawers

\$12.00

CHIFFONIER—Elm, golden finish, top 17 x 33 in., stands 4 feet high, has 5 full length drawers, British bevel mirror at back

\$15.00

CHIFFONIER—Surface quarter cut oak, golden finish, top 18 x 34 in., shaped British bevel mirror at back 12 x 22 in., swell front, 3 long and 2 short drawers and 1 door. Price

\$22.50

CHIFFONIER—Surface quarter cut oak, golden finish, top 17 x 32 in., stands 4 feet high, has 5 full length drawers—a very useful and pretty article.

\$14.00

CHIFFONIER—Surface quarter cut oak, golden finish, top 17 x 32 in., stands 4 feet high, has 5 full length drawers, British bevel mirror at back

\$17.00

CHIFFONIER—Surface quarter cut oak, golden finish, top 19 x 36 in., has 14 x 24 in. British bevel mirror, 3 long and 2 short drawers and 1 door. Special value at

\$20.00

Indispensable Dressing Table Things

A fine new collection of requirements for milady's dressing table is ready for inspection.

The broad variety includes all colors of decorations, to harmonize with any coverings.

Hair Receivers, Hairpin Holders, Comb and Brush, Manicure and Pin Trays, Puff Boxes, Ring Trees, etc., in the most delicate china, giving a wide range of prices.

Many little priced things.

A Warm Weather Incidental--- Ice Cream Sets

There are others, too, such as Water, and Lemonade Sets, Ice Water Jugs and Tumblers, Sherbet Cups, Straws, etc.

It's better to be prepared for the hot summer day, than to be caught napping.

A splendid variety to choose from now, which may not be said later on. Some very ornate Ice Cream Sets in china at attractive prices, will make you ashamed to think that you've not had a complete service before.
